# Government-wide Food Quality Assurance Program Interagency Functional Directory

U. S. DEPT. OF AGRICULTURE  
NATIONAL AGRICULTURAL LIBRARY

SFP 29 1986

CATALOGING = PREP.

## INTRODUCTION

This Directory of contacts is intended for use by the Market Research and Development Division of the Agricultural Marketing Service, Department of Agriculture, in carrying out its mission of managing the Government-wide Food Quality Assurance Program. Agency listings provide the names of key personnel, mailing addresses, telephone numbers, and a brief synopsis of the function of the organization. All military correspondence should be addressed through the highest ranking official using the attention code when applicable. AUTOVON numbers are provided for Department of Defense personnel. Washington access to these numbers may be obtained through the specific service operators as follows: U.S. Air Force, 697-1201, U.S. Army, 695-0441, and U.S. Navy, 695-9801.

The Directory contains eight main parts. Part 1 lists key agency personnel and their function. Part 2 is a glossary of acronyms and abbreviations. Part 3 contains organizational charts and missions. Parts 4 through 8 list activities and agencies according to their function.

For the most efficient use of this Directory, users should first identify the function of the activity they wish to contact, then locate the activity in the Table of Contents, pages iii through viii. A particular person may easily be found by using the alphabetical listing on pages 1-3 through 1-19.

The Directory will be revised on an as-needed basis. New directories will be sent to recipients of record. To report any changes, please contact:

Mr. Charles E. Carlson  
Agricultural Marketing Specialist  
Food Quality Assurance Branch  
USDA/AMS/MRD  
Room 2957, South Building  
14th Street and Independence Avenue, SW  
Washington, DC 20250  
Phone: (202) 475-4953

## PART 3

### ORGANIZATIONAL CHARTS AND MISSIONS

Information in this part has been provided by the listed organizations and taken from information found in The United States Government Manual 1983/84.

## DEPARTMENT OF AGRICULTURE

The act of Congress, approved May 15, 1862, created the Department of Agriculture (USDA). USDA works to improve and maintain farm income and to develop and expand markets abroad for agricultural products. It helps to curb and to cure poverty, hunger, and malnutrition. The Department, through inspection and grading services, safeguards and assures standards of quality in the daily food supply.

### AGRICULTURAL MARKETING SERVICE

The Agricultural Marketing Service (AMS) was originally established on May 16, 1913, as the Office of Markets and reorganized on June 17, 1981. AMS administers standardization, grading, inspection, procurement, market news, marketing order, regulatory, and related programs.

#### STANDARDIZATION, INSPECTION, GRADING, and PROCUREMENT

Under the Egg Products Inspection Act, AMS provides mandatory inspection in all plants processing liquid, dried, or frozen egg products, and also controls the disposition of restricted shell eggs.

U.S. grade standards for food and farm products are developed to help buyers and sellers trade on agreed-to specifications. U.S. grade standards have been established for more than 300 major agricultural products. Grading and inspection services are provided to certify the grade and quality of products. Grading services are voluntary, provided on request, and for a fee.

Under section 32 of Public Law 320, August 24, 1935, as amended (7 U.S.C. 612c), 30 percent of customs receipts collected during each calendar year are automatically appropriated for expanding outlets for nonbasic commodities. An amount equal to 30 percent of receipts collected on fishery products is transferred to the Department of Commerce to encourage the distribution of such products. Most of the funds are transferred to the Food and Nutrition Service and are dedicated to commodity distribution activities under section 6 of the National School Lunch Act and other authorities specified in the child nutrition appropriation.

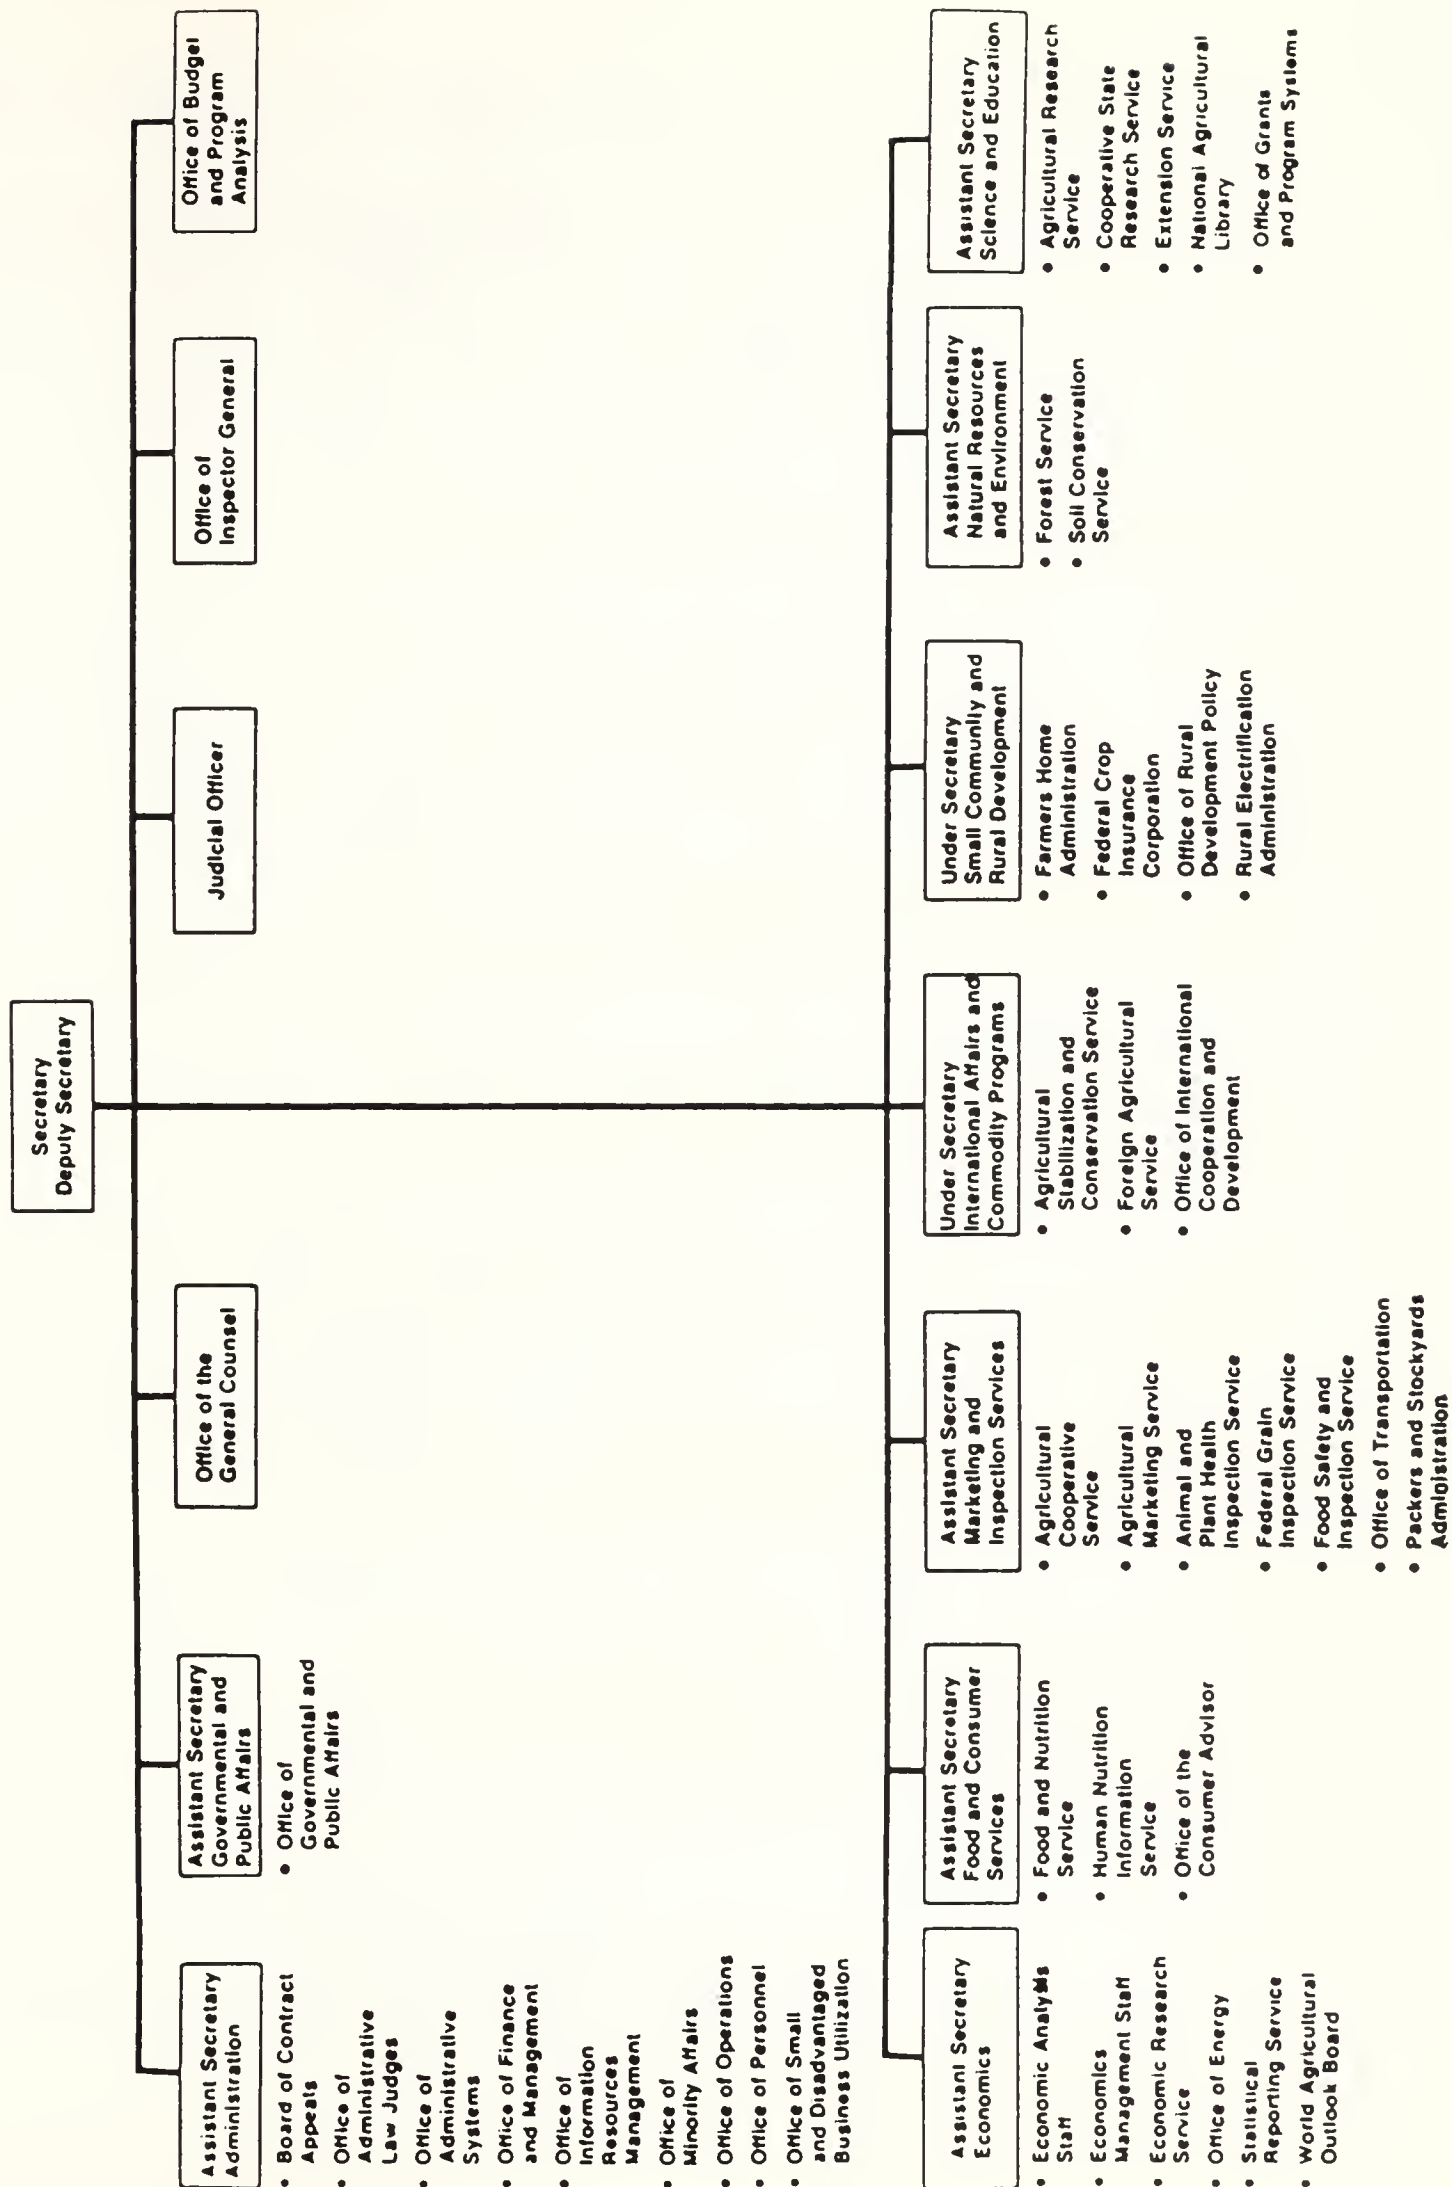

#### MARKET NEWS

This service provides current, unbiased information to producers, processors, distributors, and others to assist them in the orderly marketing and distribution of farm commodities. Information is collected and disseminated on supplies, demands, prices, movement, location, quality, and condition of farm products in specific markets and marketing areas.

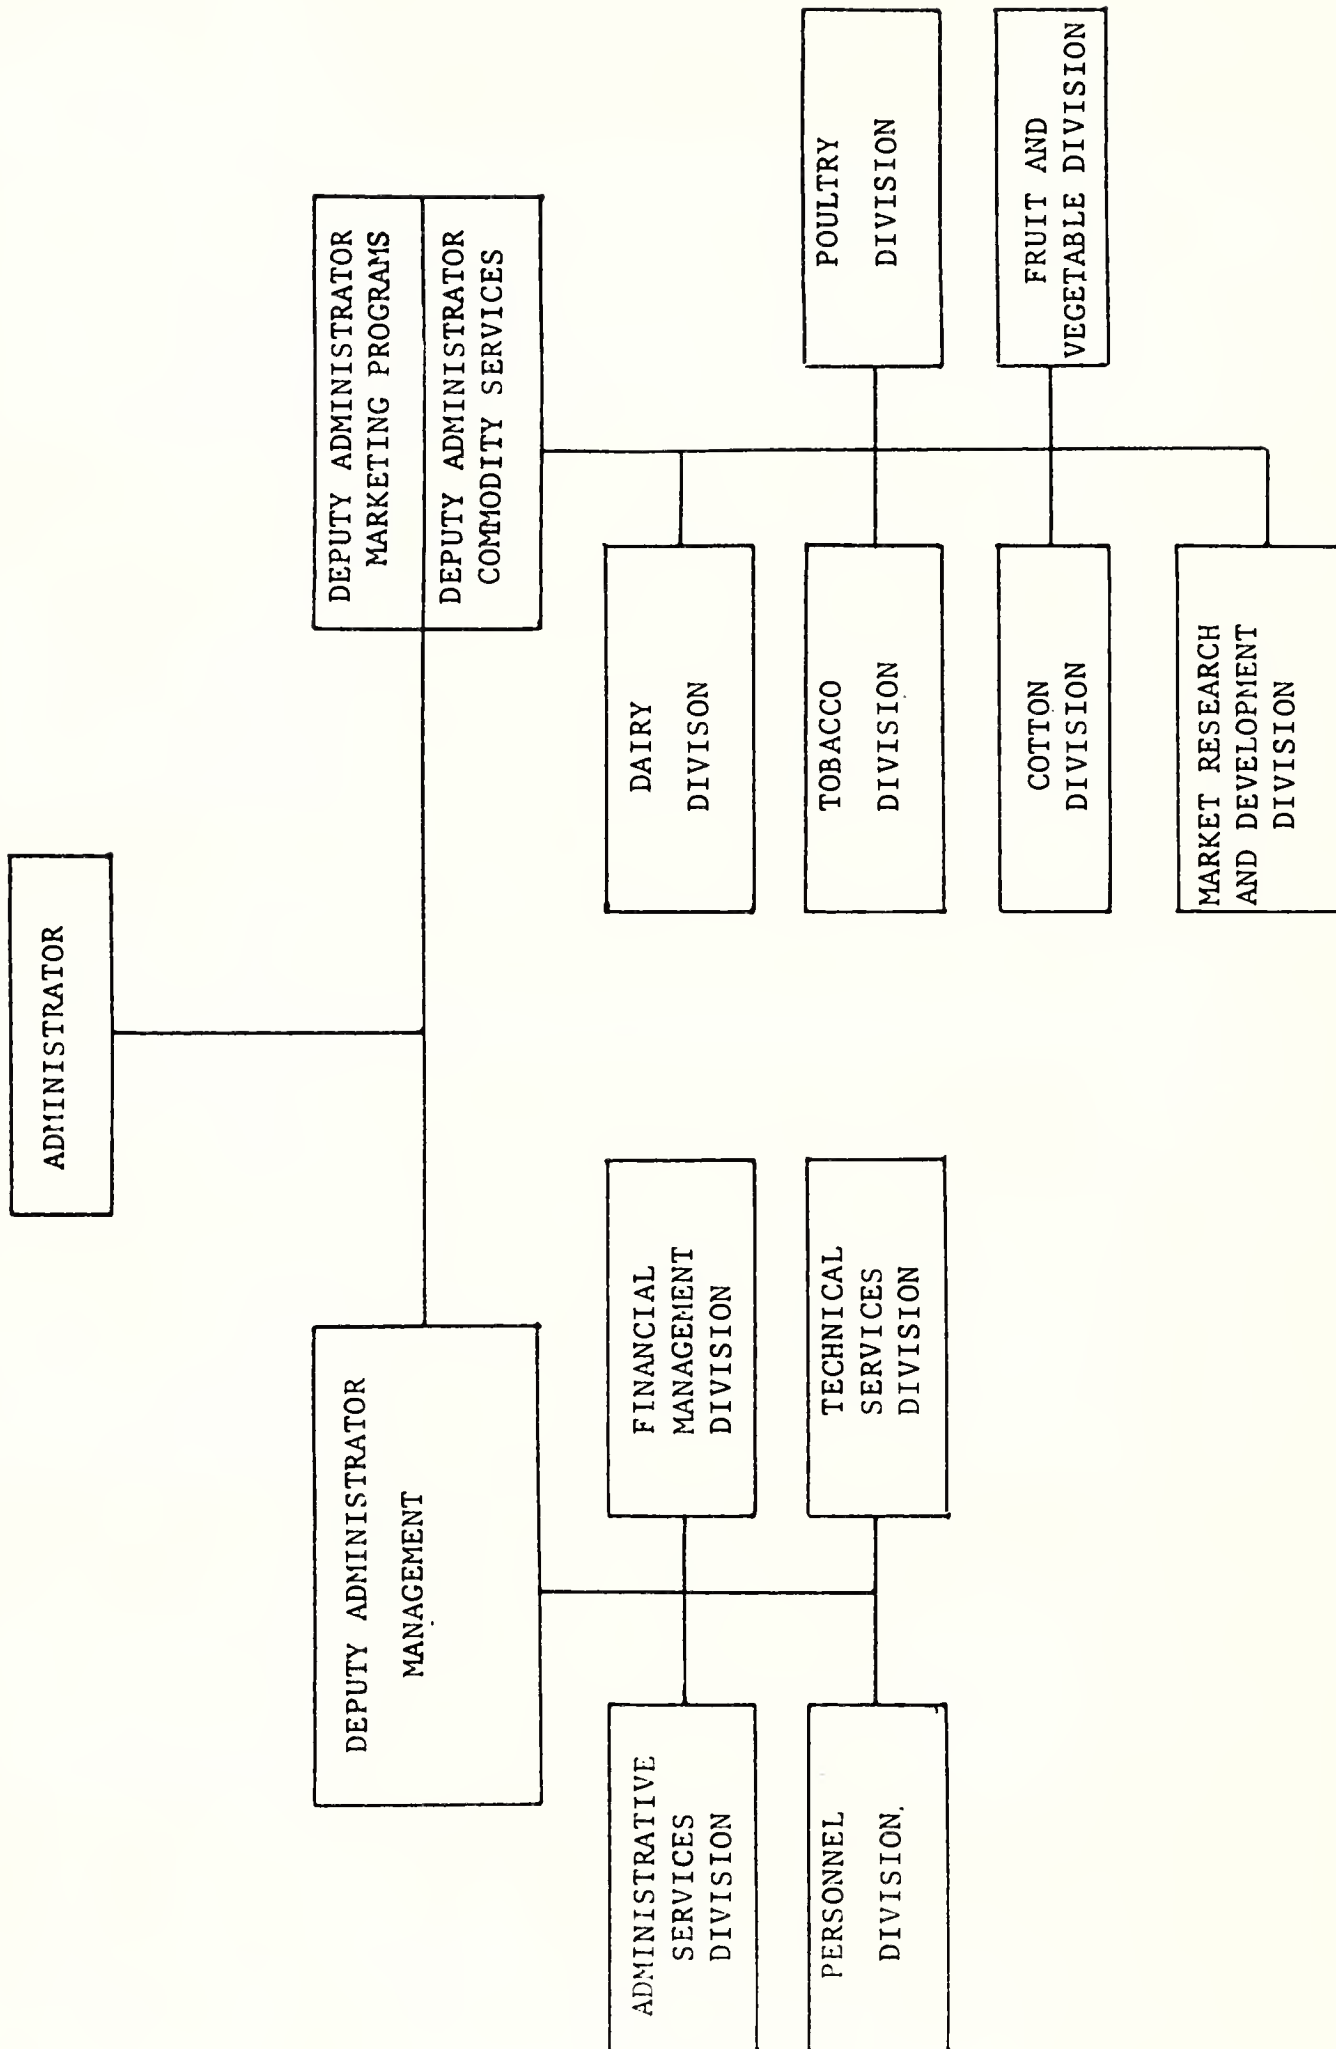

## REGULATORY PROGRAMS

AMS administers several regulatory programs designed collectively to protect producers, handlers, and consumers of agricultural commodities from financial loss or personal injury resulting from careless, deceptive, or fraudulent marketing practices. Other AMS regulatory programs encourage fair trading practices in the marketing of fruits and vegetables (Perishable Agricultural Commodities Act, 46 Stat. 531; 7 U.S.C. 499a-499s); and protect farmers' rights to organize cooperatives (Agricultural Fair Practices Act, 82 Stat. 93; 7 U.S.C. 2301-2306).

DEPARTMENT OF AGRICULTURE  
AGRICULTURAL MARKETING SERVICE

## MARKET RESEARCH AND DEVELOPMENT DIVISION

On July 29, 1977, the Administrator for Federal Procurement Policy in the Office of Management and Budget approved the Executive Branch Plan for a Government-wide Food Quality Assurance Program (GFQAP) for food procured by Federal agencies. The need for this Program had been identified by the Commission on Government Procurement in 1972 because of the complexity of Federal food specifications, their tendency to limit competition and increase processing and distribution costs, and the fragmentation that existed because responsibility for administering inspection requirements was located in several agencies.

On July 18, 1979, the Secretary of Agriculture assigned to the Food Safety and Quality Service (FSQS) responsibility for this Program. The Administrator of FSQS, in turn, assigned the Food Quality Assurance Division (FQAD) the responsibility to manage this GFQAP. FQAD became fully operational on October 1, 1979. On June 17, 1981, this Program and FQAD were reassigned to AMS. All agencies of the Department will adhere to the policies and procedures established by AMS regarding food quality assurance and development, use, and revision of Federal food product descriptions. On October 1, 1983, the GFQAP was reassigned to the Market Research and Development Division (MRD).

The mission of the GFQAP is to manage and approve Federal product descriptions for food items and to establish quality assurance policies and procedures applicable to the procurement of food by Federal agencies using appropriated funds.

\*\*\*\*\*  
\* The GFQAP is a part of MRD of Marketing Programs which is a program \*  
\* of AMS. The GFQAP interfaces with Federal activities that use, \*  
\* procure, grade, or inspect food items, or have responsibility to \*  
\* prepare food documents or carry out applied food research. \*  
\*\*\*\*\*

## DAIRY DIVISION

The Dairy Division (DA) administers and directs programs for marketing services, marketing agreements and orders, market news, grading and standardization, expansion of market outlets, and related programs for milk and dairy products.

## FRUIT AND VEGETABLE DIVISION

The Fruit and Vegetable Division (FV) conducts grading and standardization programs for fresh and processed fruits and vegetables, edible tree nuts, peanuts, raisins, and miscellaneous related products. The FV also administers the commodity procurement program in which fresh and processed fruits and vegetables, corn syrup, and dry beans are obtained for distribution and use in child nutrition and other domestic feeding programs, and the division administers diversion programs.

## LIVESTOCK DIVISION

The Livestock Division (LS) administers and directs grading, certification, and standardization activities for meat and meat products. The staff also conducts diversion, purchase, and export programs for meat products. The nationwide grading and certification program involves the official grading of meat according to Federal standards upon requests of users. Users reimburse the Agency for this service. The LS also examines and certifies meat products for compliance with both Federal and non-Federal specifications for large-scale purchasers, including Federal, State, and local government units, as well as commercial and private users. The standardization program involves the development, establishment, and revision of U.S. standards for classes and grades of meat and the development and revision of purchase specifications for meat products. The purchasing activity involves all aspects of the contracting function including issuing purchase announcements and invitations, receiving offers, and executing and servicing contracts. The program normally involves weekly purchases of as many as three or four different meat products over a 6 to 8 month period. The LS conducts regular reviews of all programs to evaluate program effectiveness and efficiency, and to monitor potential problem areas.

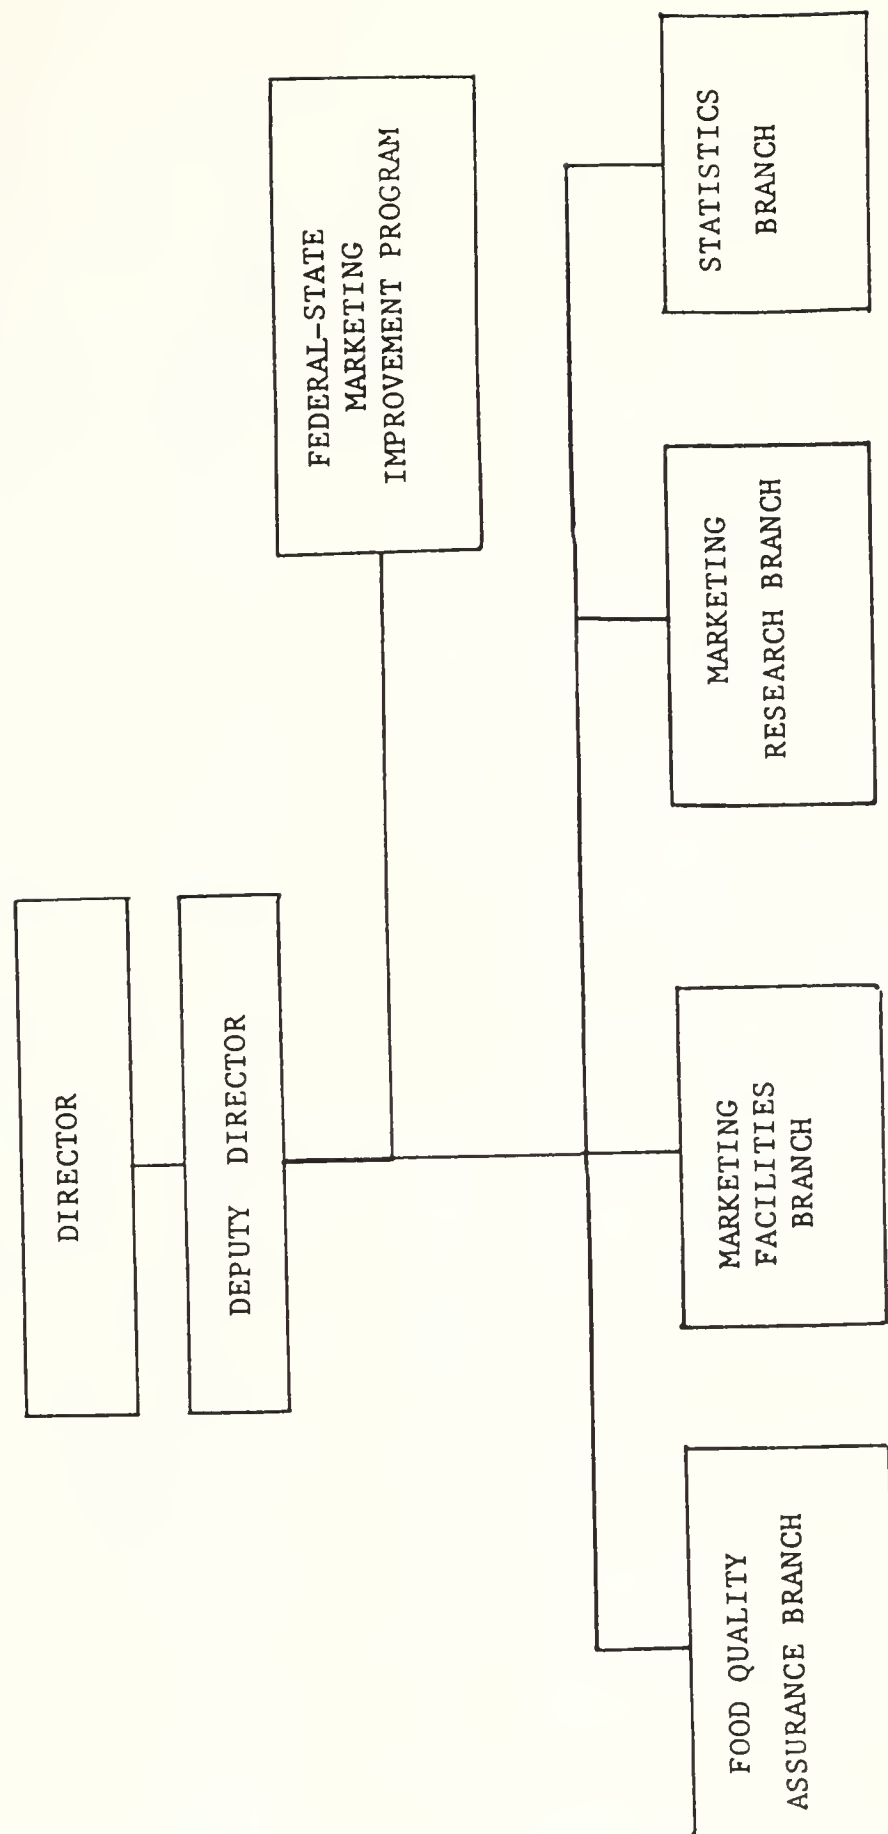

## POULTRY DIVISION

The Poultry Division (PY) administers and directs programs for the mandatory continuous inspection of egg products and the surveillance inspection of shell egg handlers and hatcheries; voluntary inspection and grading of egg products, shell eggs, poultry, rabbits, and related products; stipulation of standards for poultry, shell eggs, egg products, and related products; and purchase and diversion programs for poultry and egg products.

Other division responsibilities include maintaining and developing relationships with the States, trade organizations, and related groups for the purpose of obtaining policy and program recommendations; and recommending withdrawal of service actions.

## AGRICULTURAL RESEARCH SERVICE

The Agricultural Research Service (ARS) was established in 1953 and reorganized on June 17, 1981. ARS has responsibility to develop, through basic, applied, and developmental research, new knowledge and technology which will insure an abundance of high quality, nutritious, reasonably priced food and other agricultural products to meet domestic and world needs, while maintaining natural resources and environmental quality.

```

DEPARTMENT OF AGRICULTURE  
 AGRICULTURAL RESEARCH SERVICE

## AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE

The Agricultural Stabilization and Conservation Service (ASCS) was established on June 5, 1961, by the Secretary of Agriculture. ASCS is the agency of the Department of Agriculture that administers specified commodity and related land use programs designed for voluntary production adjustment, resource protection and price, market, and farm income stabilization.

ASCS, together with the Food and Nutrition Service (FNS) and AMS, is involved in all stages of planning, purchasing, allocating, and distributing commodities to appropriate outlets. ASCS contracts under price support authorities to purchase commodities such as grain, dairy, cereal, peanut products, and oil products for use in the Food Distribution Program (FDP). Overall authority to administer the FDP lies with FNS. Through the seven FNS Regional Offices, FNS provides commodities to the State distributing agencies and through them to all eligible recipient agencies and outlets in the United States. ASCS also makes dairy products in Commodity Credit Corporation (CCC) storage available for domestic distribution.

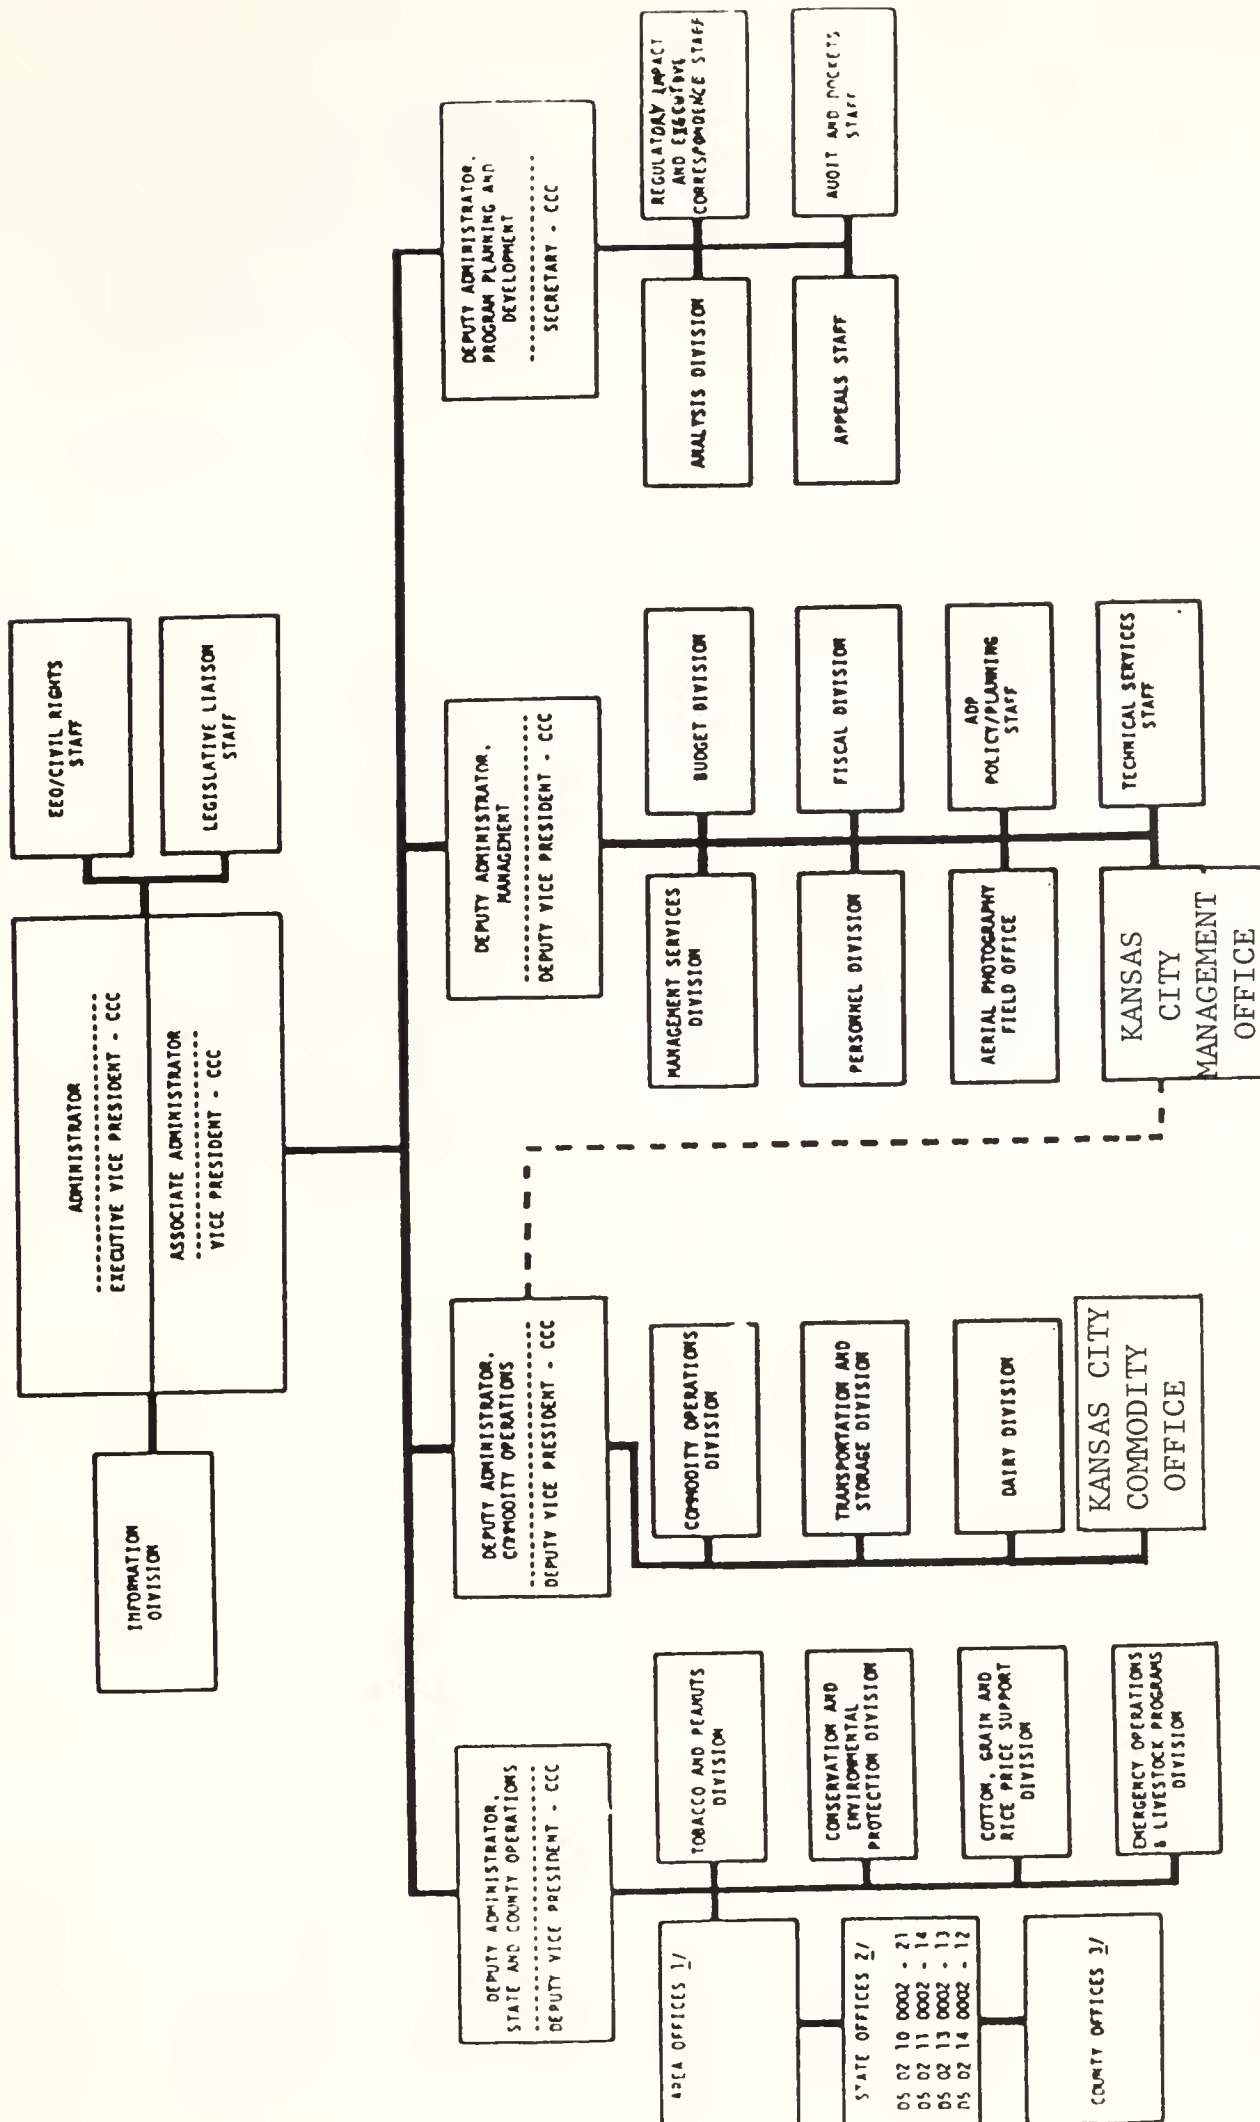

AMS contracts to purchase surplus and other commodities such as meat, poultry, fruits, and vegetables.

### KANSAS CITY COMMODITY OFFICE

This office in Kansas City, Missouri, has specific responsibilities for the acquisition, handling, storage, and disposal of commodities and products held by CCC.

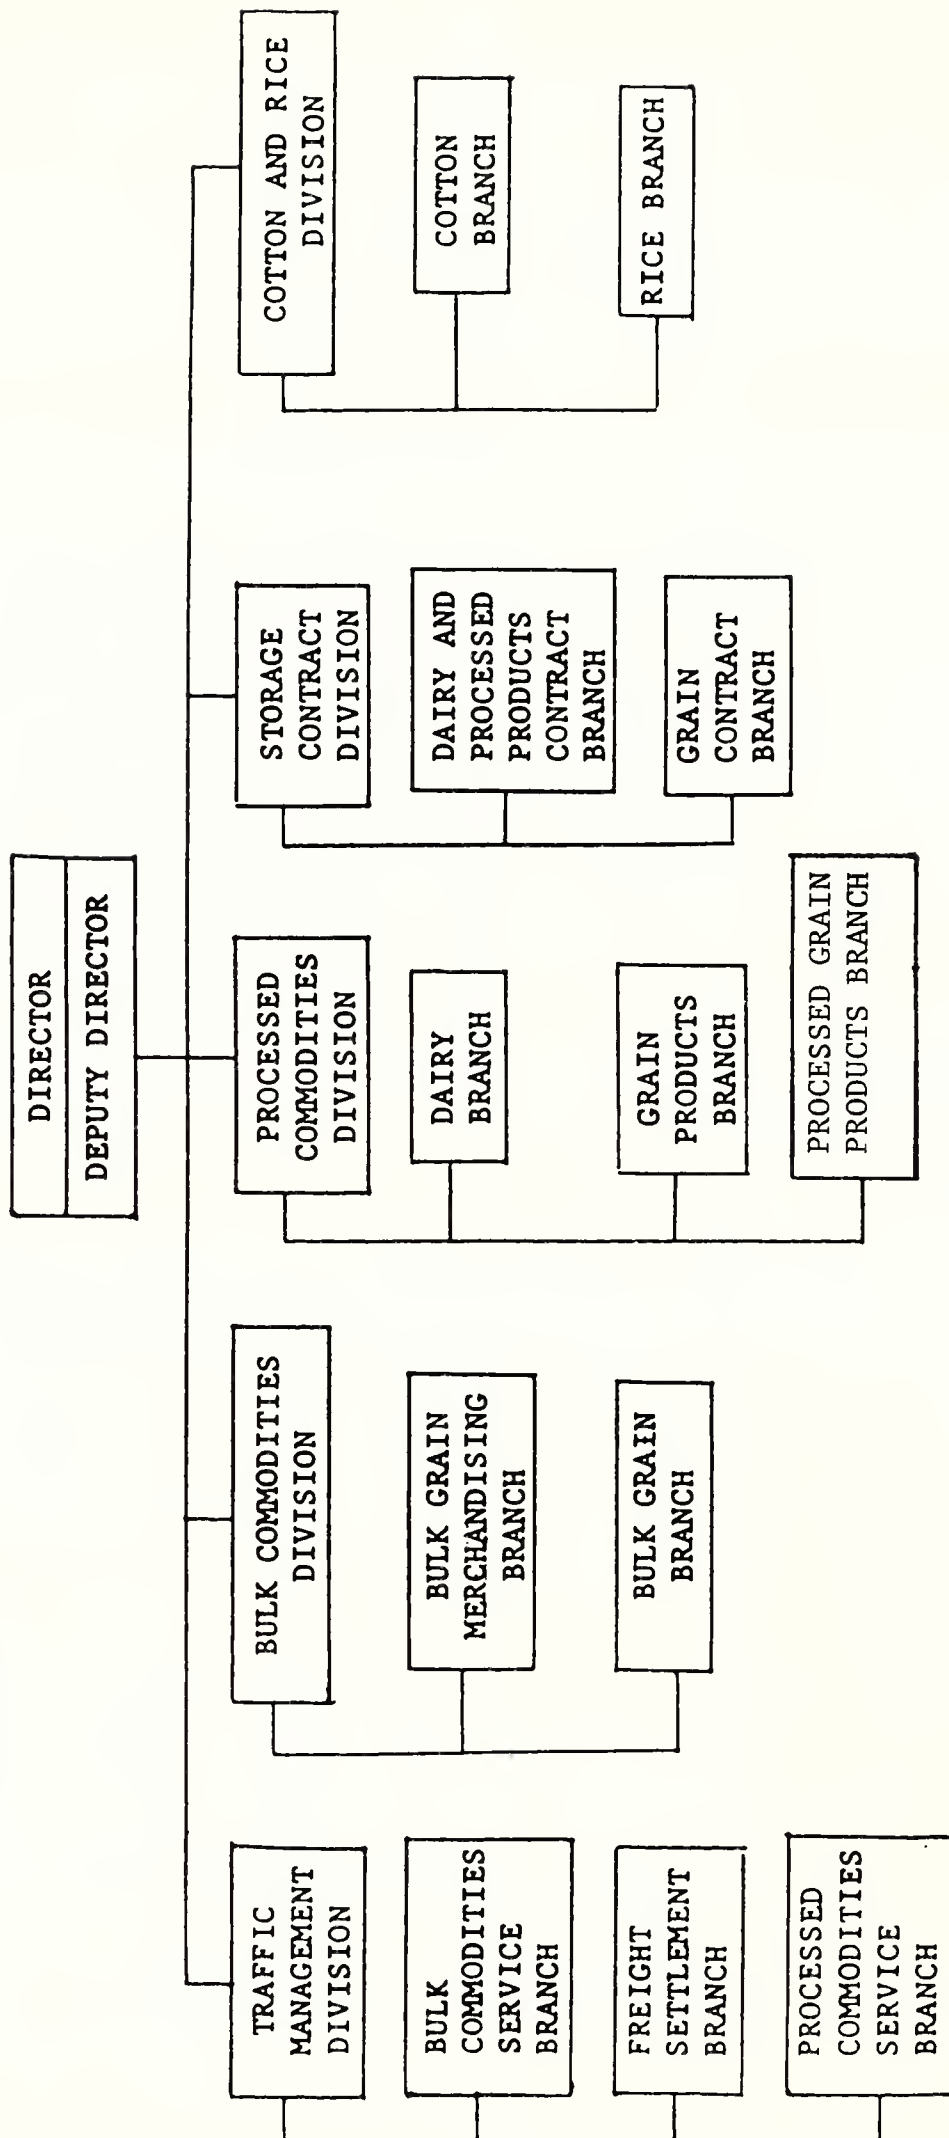

```

## FEDERAL GRAIN INSPECTION SERVICE

The Federal Grain Inspection Service (FGIS) was established in the Department of Agriculture on November 20, 1976. The primary task of the agency is to carry out the provisions of the U.S. Grain Standards Act, including changes made by Congress in 1976, 1977, 1980, and 1981 to ensure integrity in the inspection, weighing, and handling of American grain.

When FGIS was established, the responsibility of rice and commodity inspections and standards under the Agricultural Marketing Act of 1946 was also given to FGIS. Under this Act, FGIS performs inspections for rice, pulses, hay, straw, hops, and processed grain products upon request. These inspections are performed by FGIS employees, State cooperators, or contract licensees.

Official U.S. standards exist for corn, rye, oats, barley, flaxseed, grain, sorghum, soybeans, triticale, and mixed grains under the U.S. Grain Standards Act and rice, beans, peas, lentils, and hay under the Agricultural Marketing Act of 1946. Establishing standards and revising them, when needed, is the responsibility of standardization officials in Grandview, Missouri.

```

## FOOD AND NUTRITION SERVICE

FNS was established on August 8, 1969, by the Secretary of Agriculture, under authority of 5 U.S.C. 301 and Reorganization Plan 2 of 1953. FNS is the agency of the Department that administers the programs to make food assistance available to people who need it. These programs are operated in cooperation with States and with local governments.

FNS administers several programs designed to improve the nutrition of children, particularly those who come from low-income families. Principal of these is the National School Lunch Program which provides financial assistance to public and nonprofit private schools, of high school grade and under, in operating nonprofit school lunch programs. These funds are provided to the schools with special emphasis on extending the Program to make meals available to all children, and to serve meals free or at reduced prices to children of needy families.

The School Breakfast Program provides cash assistance to State educational agencies to help schools in operating nonprofit breakfast programs meeting established nutritional standards. It is especially important in improving the diets of needy children who may receive breakfast free or at reduced prices.

The Summer Food Service Program for Children helps to get nutritious meals to needy preschool and school-aged children in recreation centers, summer camps, or during vacations in areas operating under a continuous school calendar. Through grants-in-aid and other means, States can initiate, maintain, and expand nonprofit food service programs for children in service institutions. Any nonresidential public or private nonprofit institution or residential public or private nonprofit summer camp is eligible if it develops a summer food service program for children from low-income areas. All meals are served free.

The Child Care Food Program is a companion activity that helps to get nutritious meals to preschool and school-aged children in child care facilities. Through grants-in-aid, States can initiate, maintain, or expand nonprofit food service programs for children in institutions providing child care. Any licensed public or private nonprofit institution providing nonresidential day care services may be eligible. Such institutions include day care centers, settlement houses, recreation centers, family day care programs, Head Start centers, and institutions providing day care services for handicapped children.

The Special Milk Program for Children is designed to help child nutrition by paying a share of the cost of increased servings of fluid milk made to children.

The Special Supplemental Food Program for Women, Infants, and Children--the WIC Program--provides specified nutritious food supplements to pregnant and nursing women up to 6 months postpartum, and to children up to 5 years of age. Participants are determined by competent professionals (physicians, nutritionists, nurses, and other health officials) to be health risks because of inadequate nutrition and low income. Cash grants are made available to participating State health departments or comparable State agencies, or recognized Indian tribes, bands, or groups. The State agencies distribute funds to the local agencies, and the funds are used to provide foods for WIC recipients and to pay specified administrative and clinical costs.

The Commodity Supplemental Food Program donates foods to local health centers or other local storage and distribution places near the health centers. Orders for extra foods are filled at these locations when doctors find that new mothers, mothers-to-be, babies, and young children need extra food in their diets and authorize food orders for them.

The Kansas City Commodity Office, a component of ASCS, arranges for and monitors the transportation of food across the nation and maintains a communication network with the vendors and the States concerning the delivery and shipment of donated foods.

#### FOOD DISTRIBUTION DIVISION

Foods purchased by the Department are made available principally to children in school lunch and breakfast programs, in summer camps and child care centers; to eligible women, infants, and children through local health centers; and to the nutrition program for the elderly. Overall authority to administer the FDP lies with the Food Distribution Division of FNS. Through the seven FNS Regional Offices (FNSRO's), FNS provides commodities to the State distributing agencies and through them to all eligible recipient agencies and outlets in the United States, including eligible schools and institutions. The FNSRO's monitor all aspects of the FDP including regulatory compliance, food ordering, allocation, shipping, distribution, and entitlement for State agencies.

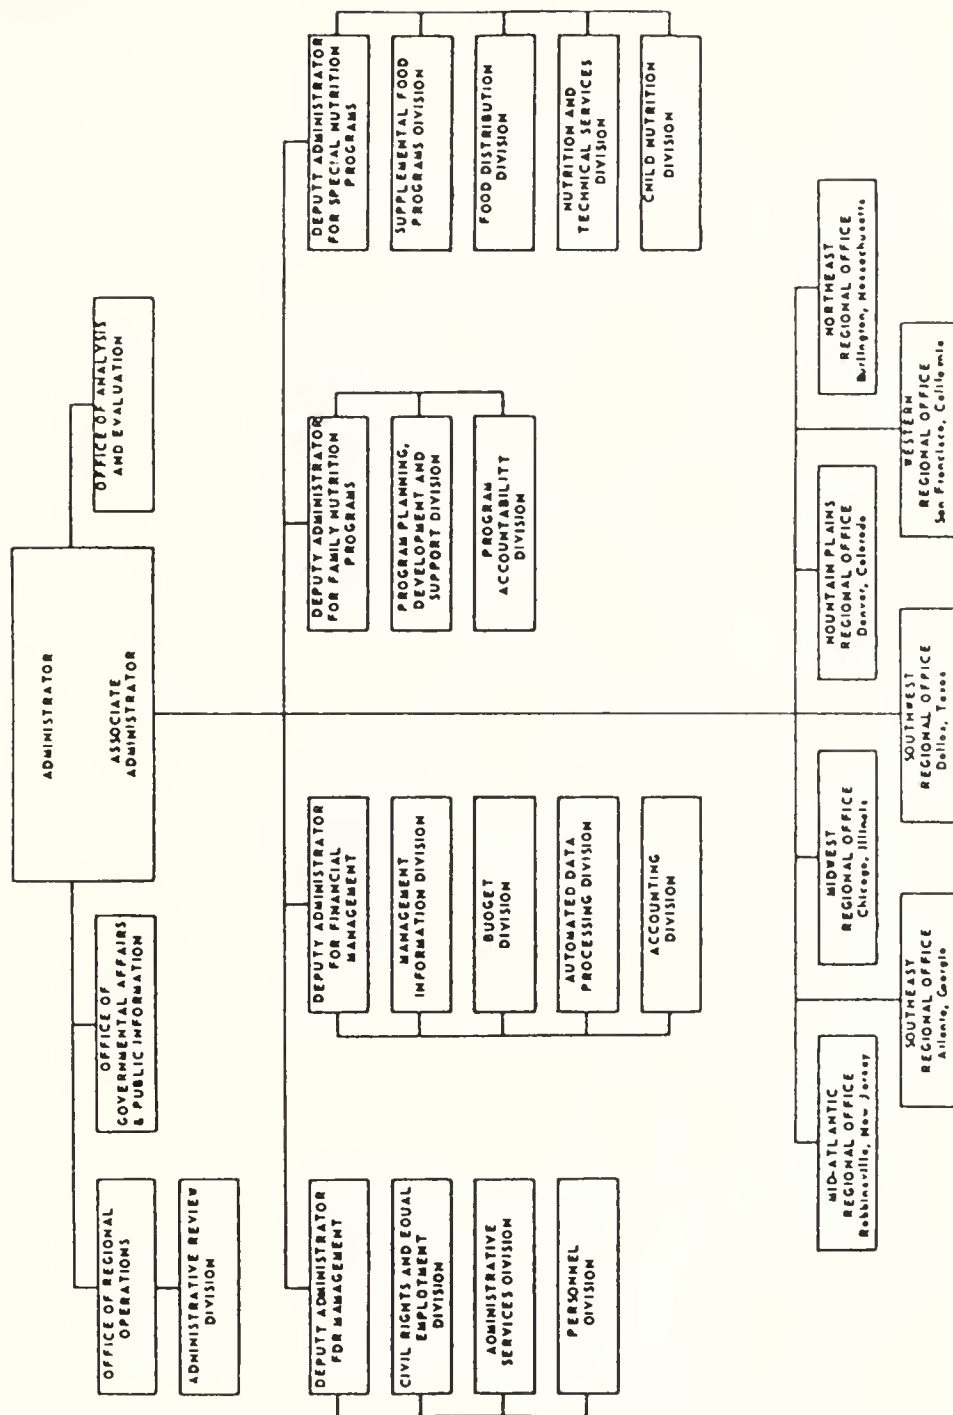

#### NUTRITION AND TECHNICAL SERVICES DIVISION

The Nutrition Technical Services Division provides technical assistance to meet nutritional requirements for FNS programs, provides assistance in the further processing of food items, and provides nutritional education.

## FOOD SAFETY AND INSPECTION SERVICE

The Food Safety and Inspection Service (FSIS) was established by the Secretary of Agriculture on June 17, 1981. It was created to provide assurance to the consumer that foods under its jurisdiction are safe, wholesome, and nutritious, and that they are informatively and honestly labeled.

Federal inspection is provided for all meat, poultry, and related products processed by plants shipping in interstate and foreign commerce as mandated by law. The work includes inspection of poultry and animals at the time of slaughter and of processed products during various stages of production and handling to assure wholesomeness of products and truthfulness in labeling. Plant facilities and equipment are checked for adherence to Federal sanitation standards.

### MEAT AND POULTRY INSPECTION OPERATIONS

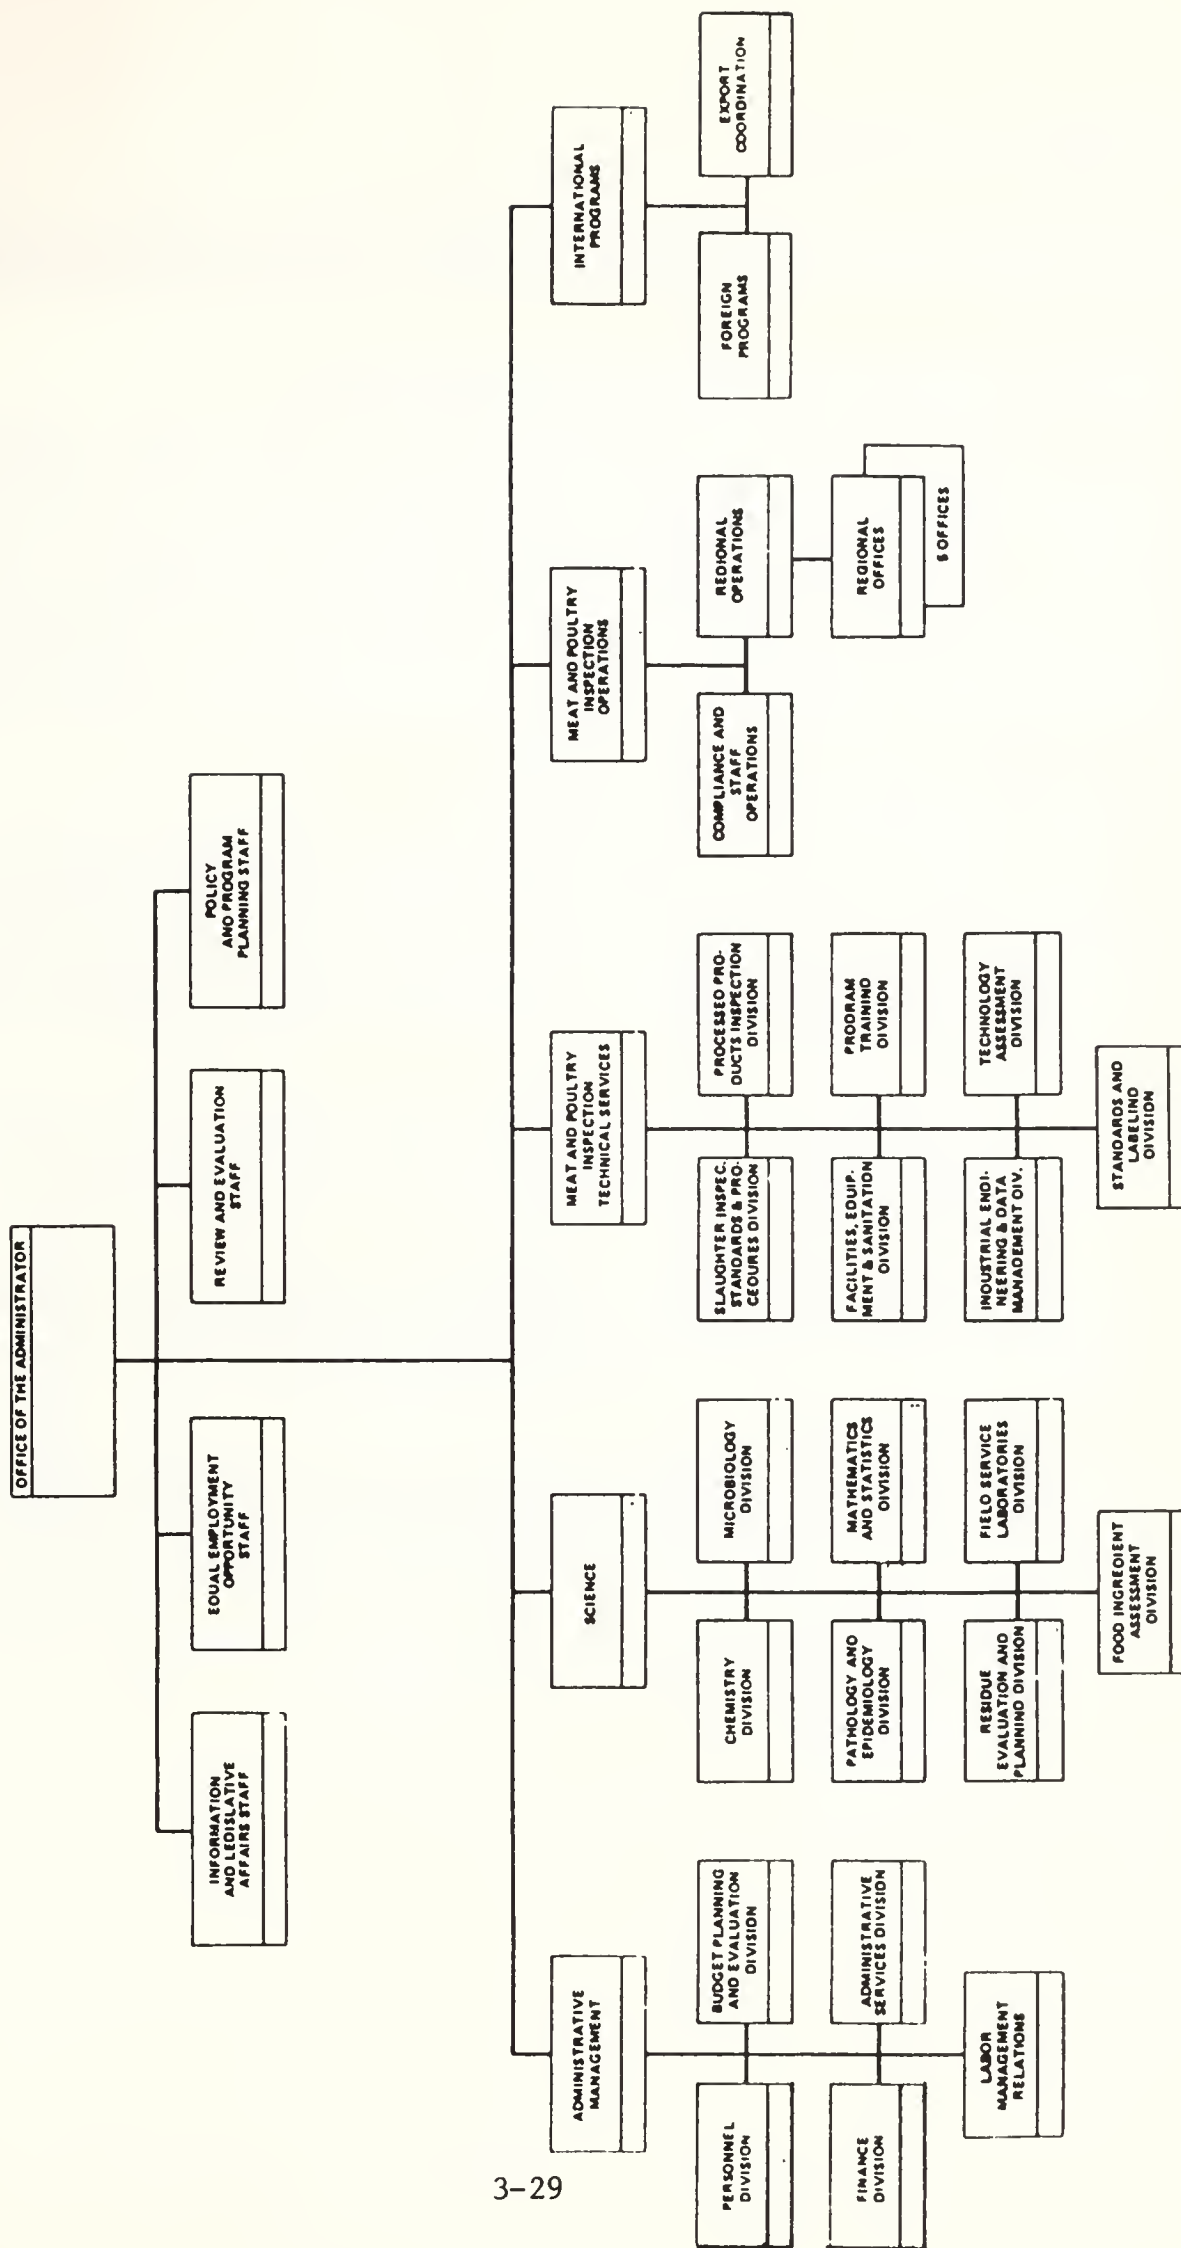

The Meat and Poultry Inspection Operations (MPIO) carries out the requirements of the Federal Meat Inspection Act and Poultry Products Inspection Act to (1) inspect the slaughter of certain domestic livestock and poultry and the processing of meat and poultry products, and (2) assure that meat and poultry products distributed to consumers are safe, wholesome, of good quality, not adulterated, and honestly and informatively labeled.

The MPIO Program is responsible for applying uniform standards for sanitation, inspection procedures, and product labeling at all establishments under Federal inspection. It is also responsible for assessing the effectiveness of State inspection programs to assure that States apply standards to meat and poultry under their jurisdiction that are at least equal to those under the Federal Meat Inspection Act and the Poultry Products Inspection Act. Further, the Program is responsible for reviewing foreign inspection systems and plants that export meat and poultry to the United States.

### SCIENCE

The function of Science is to provide scientific guidance and support for FSIS programs; develop and operate a Food-Borne Hazard Reporting System; identify, recommend, and coordinate the establishment and conduct of appropriate research projects; operate the FSIS Regulatory Field Service Laboratories; maintain liaison with national and international laboratories; conduct a program, intramurally or through contract(s), of scientific data collection and review; coordinate the establishment of agency nutritional policies; and approve the use of food additives in meat and poultry products.

DEPARTMENT OF AGRICULTURE  
FOOD SAFETY AND INSPECTION SERVICE

## DEPARTMENT OF COMMERCE

The Department of Commerce was established on March 4, 1913. It encourages, serves, and promotes the Nation's economic development and technological advancement.

### NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The National Oceanic and Atmospheric Administration (NOAA) conducts an integrated program of management, research, and services related to the protection and rational use of living marine resources, and protects marine mammals. NOAA also administers and directs the National Sea Grant program by providing grants to institutions for marine research, education, and advisory services; develops a system of data buoys for automatically obtaining and disseminating marine environmental data; and promotes the development of technology to meet future needs of the marine community.

### NATIONAL MARINE FISHERIES SERVICE

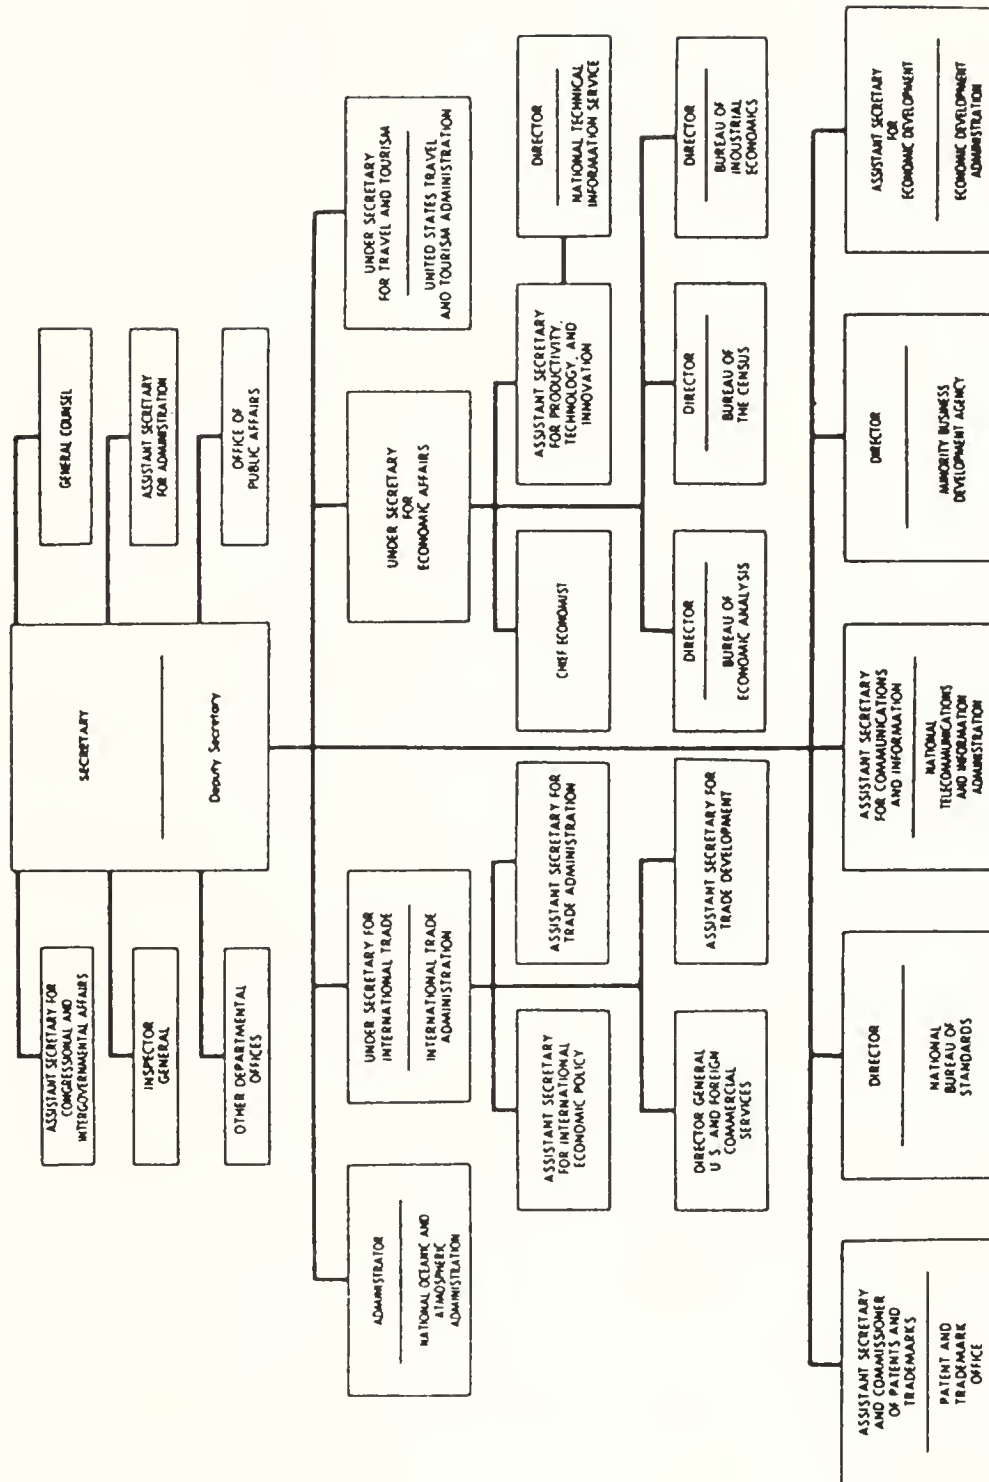

To help the fishery industry maintain the quality of its products, the National Marine Fisheries Service (NMFS) provides inspection programs to meet various needs. The Service is a part of the NOAA, an agency of the U.S. Department of Commerce. It offers official and impartial inspection and research services for all processed fishery products--fresh, frozen, canned, and cured.

Federal inspectors check the plants, procedures, and products of firms which use and pay for these services. The inspectors issue a certificate stating the quality, quantity, and condition of the product.

Fishery product inspection is designed to increase consumer confidence in products which bear inspection marks and grade shields. Inspection offers many commercial, technical, and marketing advantages to the participating industry.

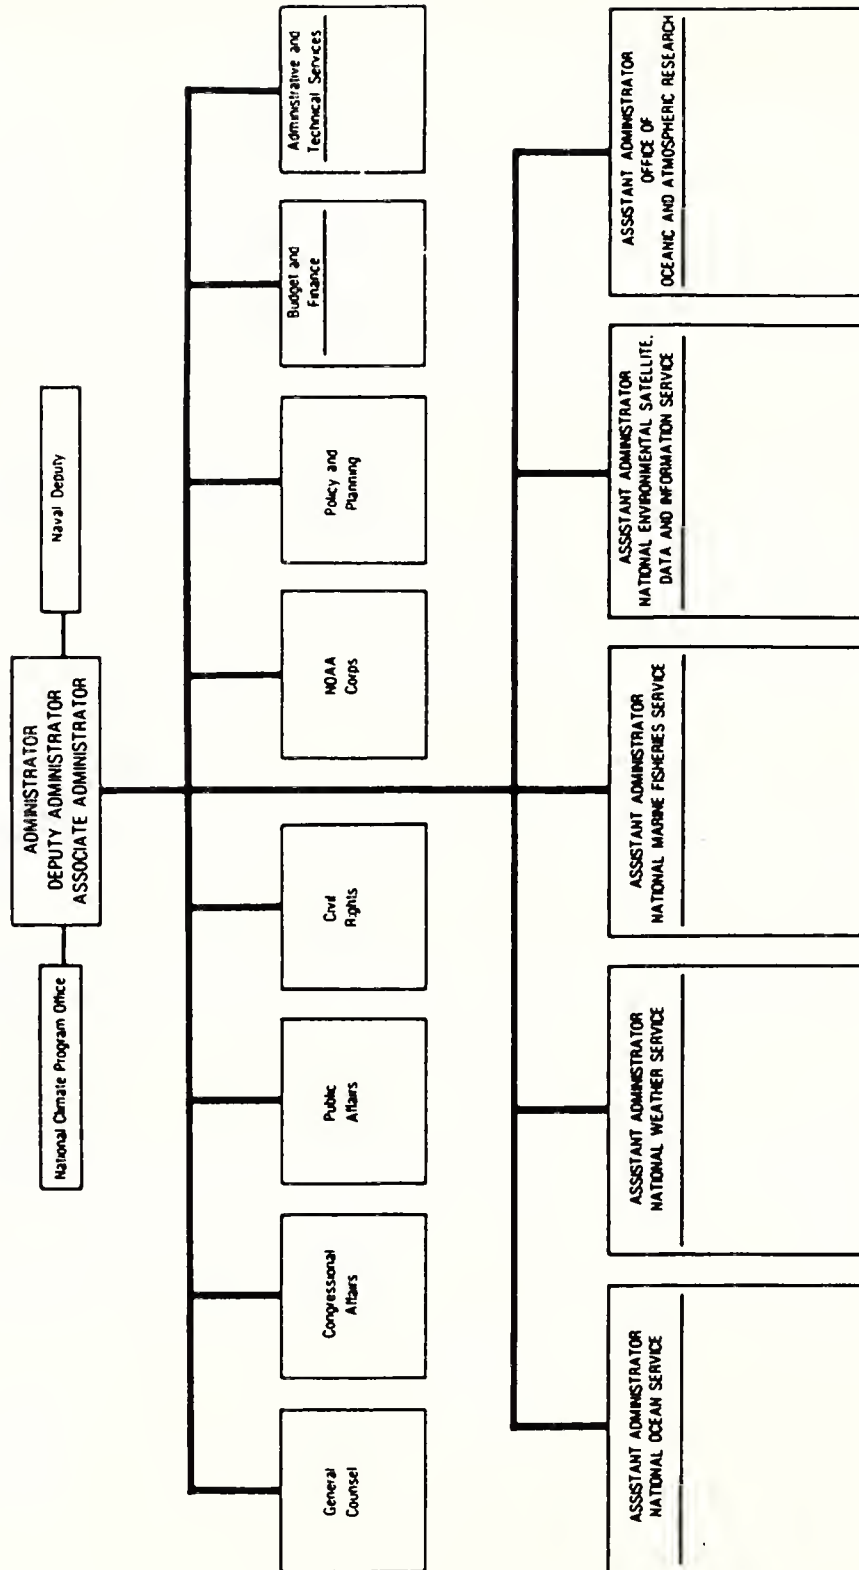

\*\*\*\*\*  
\* The GFQAP interfaces with NMFS when they grade or inspect food items \*  
\* or have responsibility to prepare food documents or carry out applied \*

## DEPARTMENT OF DEFENSE

The Department of Defense (DOD) is the successor agency to the National Military Establishment created by the National Security Act of 1947. It is responsible to provide the military forces needed to deter war and protect the security of our country. The master elements of these forces are the Air Force, Army, Navy, and Marine Corps consisting of about two million men and women on active duty. In addition, there are about one million civilian employees.

### DEFENSE LOGISTICS AGENCY

Established pursuant to authority vested in the Secretary of Defense, the Defense Logistics Agency (DLA) is an agency of DOD under the direction, authority, and control of the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics) and subject to DOD policies, directives, and instructions.

The mission of DLA is to provide effective and economical support to the military services, other DOD components, Federal civil agencies, foreign governments, and others as authorized, for assigned materiel commodities and items of supply, logistics services directly associated with the supply management function, contract administration services, and other support services as directed by the Secretary of Defense.

### DEFENSE PERSONNEL SUPPORT CENTER

Within DLA, the Defense Personnel Support Center (DPSC) is a supply center responsible for materiel management of assigned commodities and items of supply relating to food, clothing, textiles, medical, chemical, petroleum, industrial, construction, electronics, and general items of supply.

### OFFICE OF THE COMMANDER, SUBSISTENCE FIELD ACTIVITIES AND DIRECTOR, SUBSISTENCE

The Office of Commander, Subsistence Field Activities and Director, Subsistence is responsible for the acquisition and logistics management of the food required to support America's Armed Forces, their dependents, and numerous others served by various Federal programs.

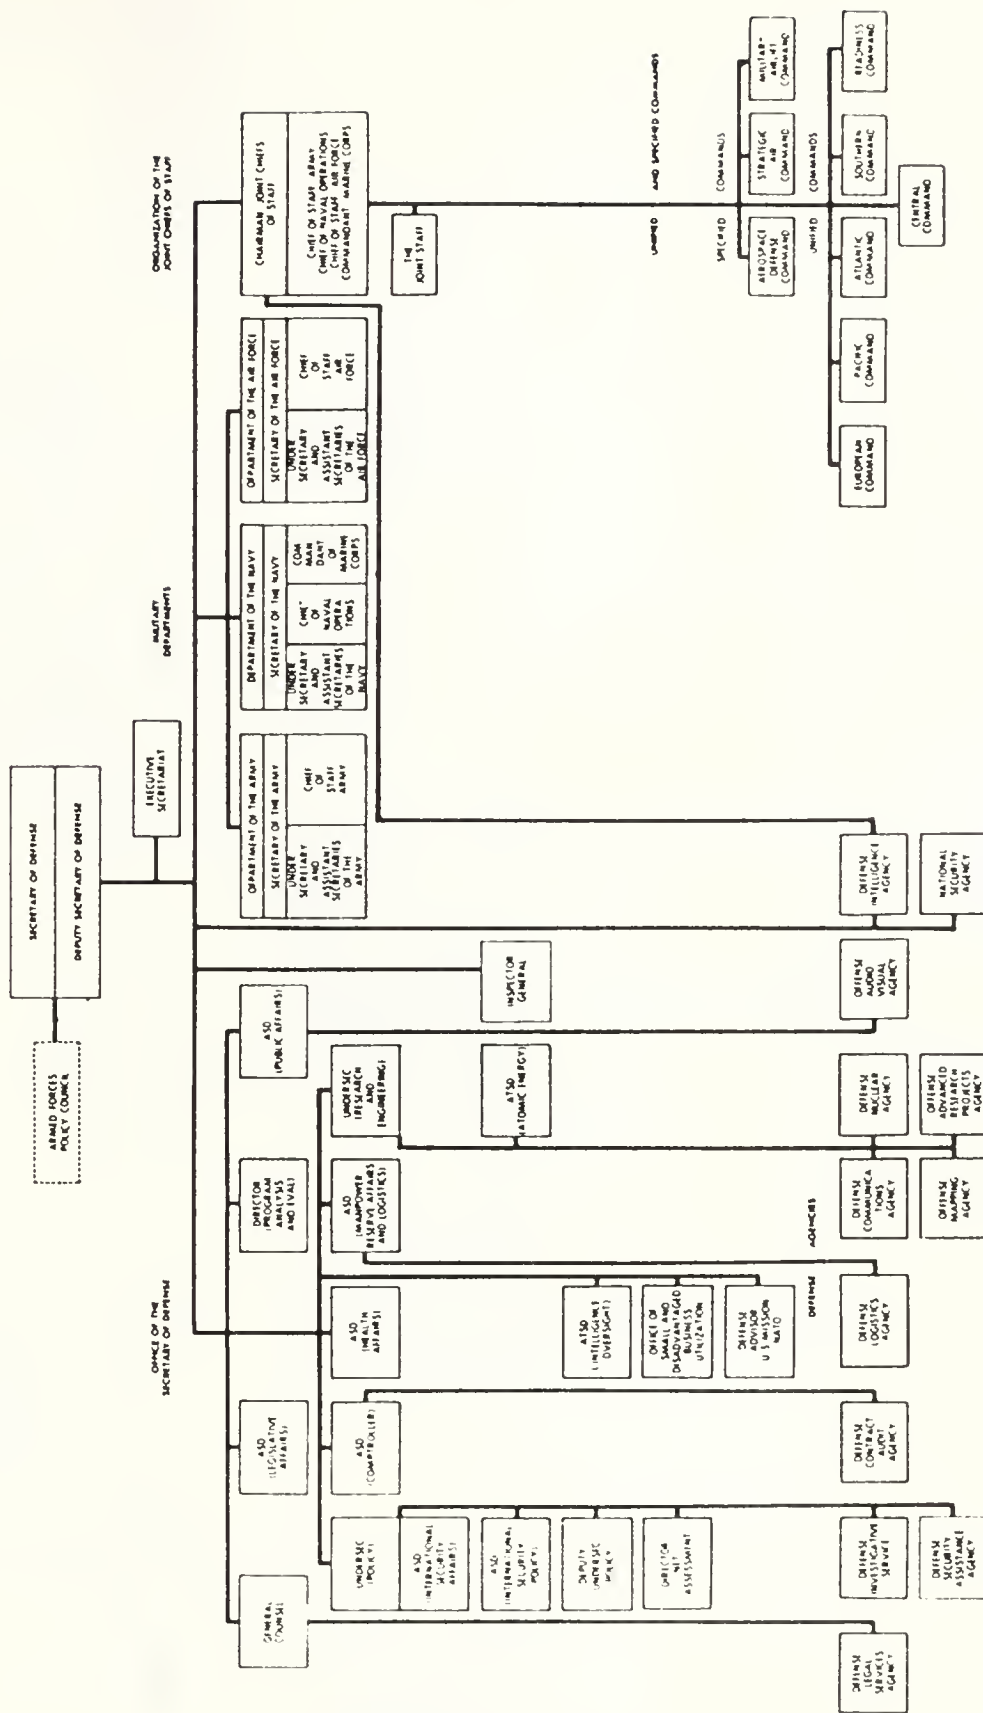

### CONTRACTING AND PRODUCTION DIVISION

This division is responsible to procure perishable and nonperishable food items for military use in troop issue and resale.

### TECHNICAL AND QUALITY ASSURANCE DIVISION

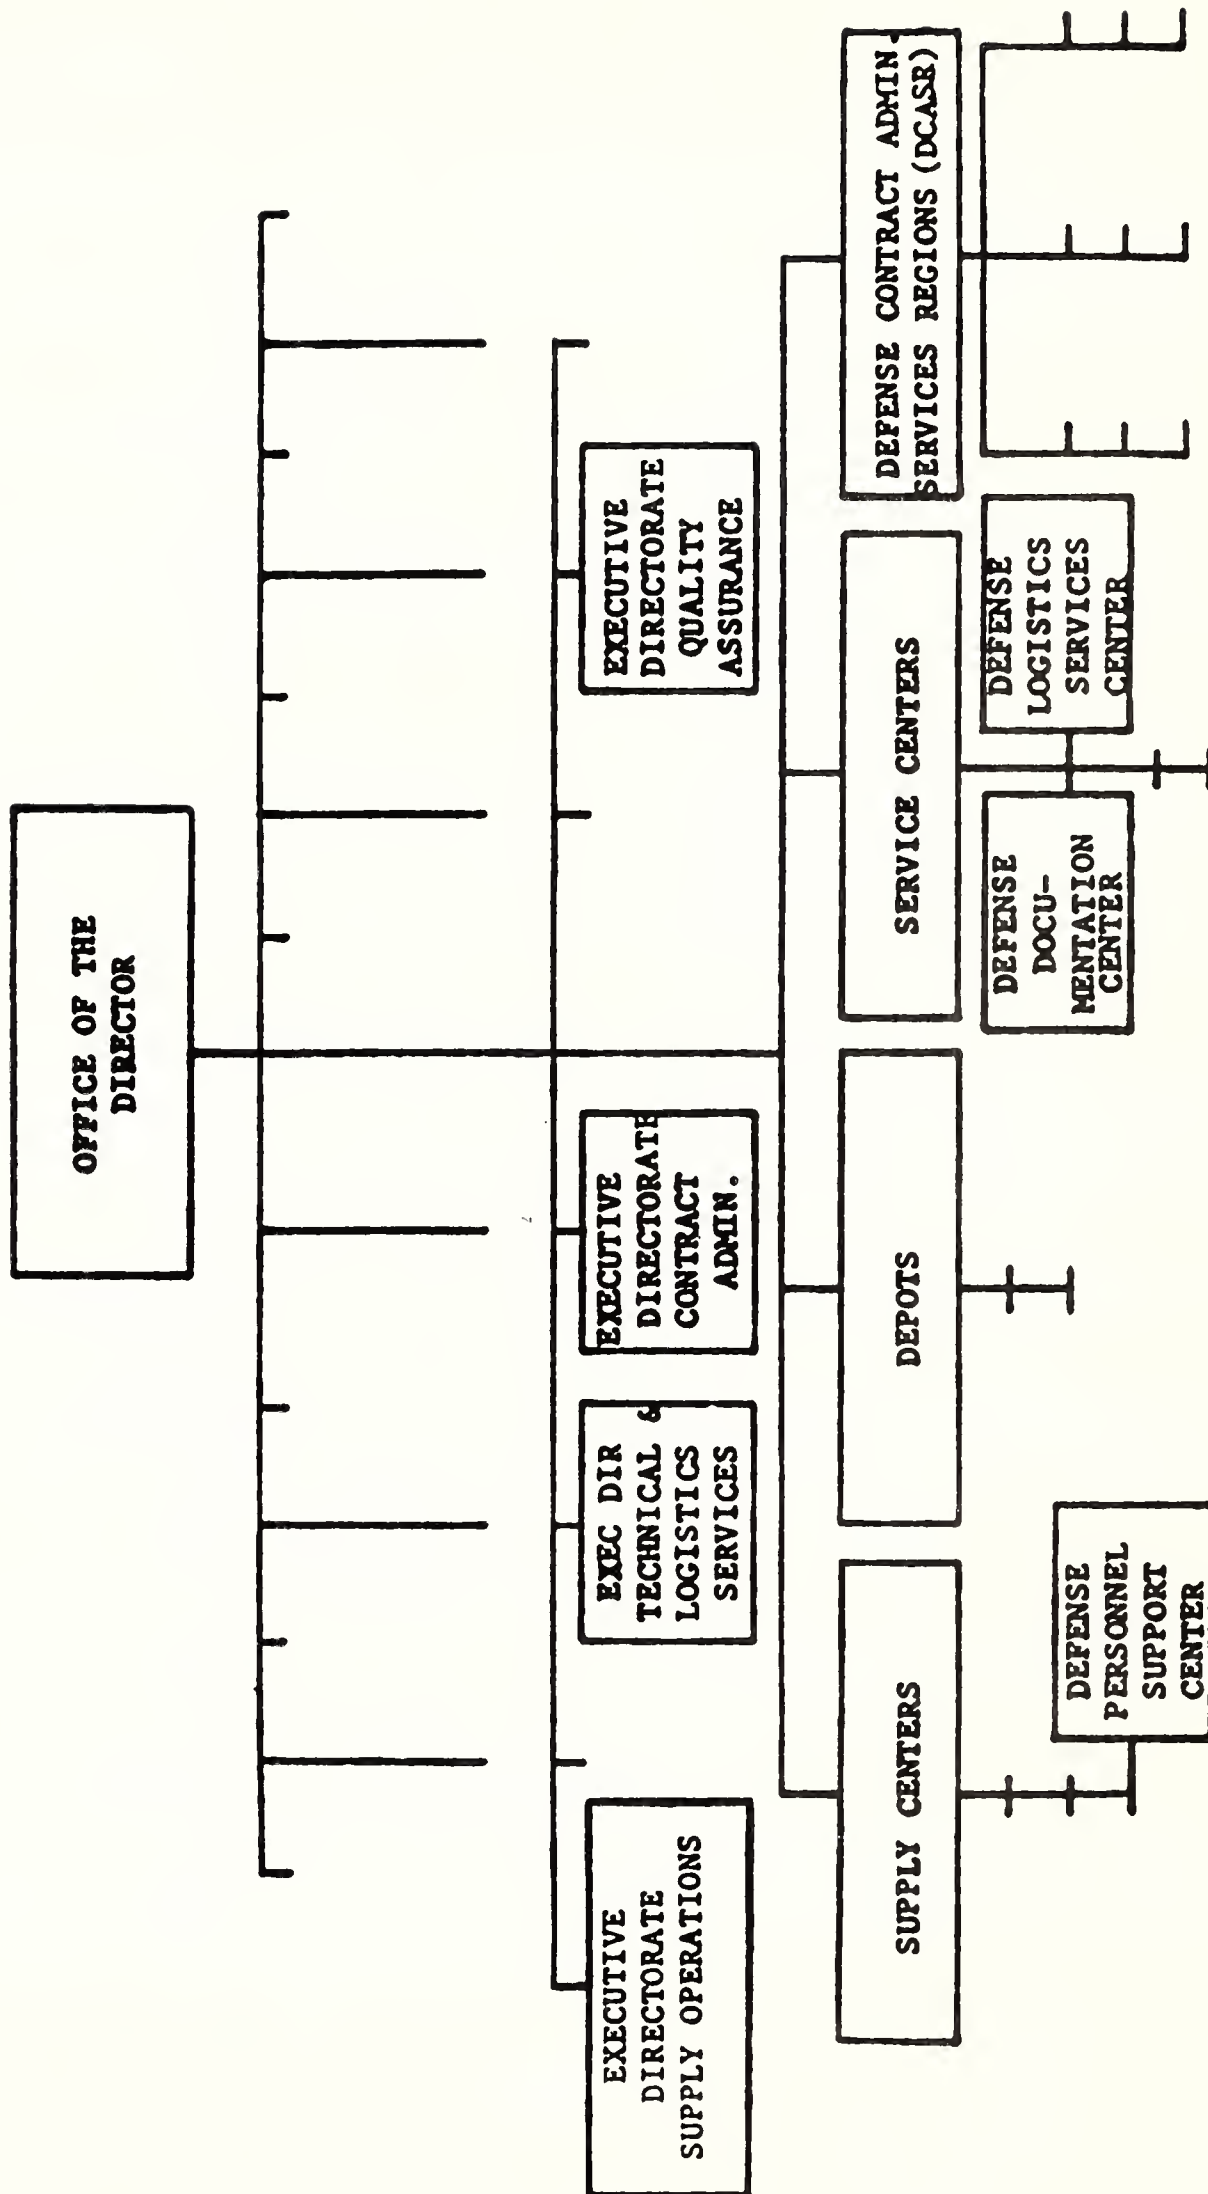

This division consists of the Quality Assurance; Technical Services; and Cataloging, Standardization and Technical Data Branches. It is the responsibility of these branches to assure the quality of food purchased and to provide technical assistance.

## DEPARTMENT OF THE AIR FORCE

The Department of the Air Force is responsible to provide an Air Force that is capable, in conjunction with the other Armed Forces, of preserving the peace and security of the United States.

### AIR FORCE ENGINEERING AND SERVICES CENTER

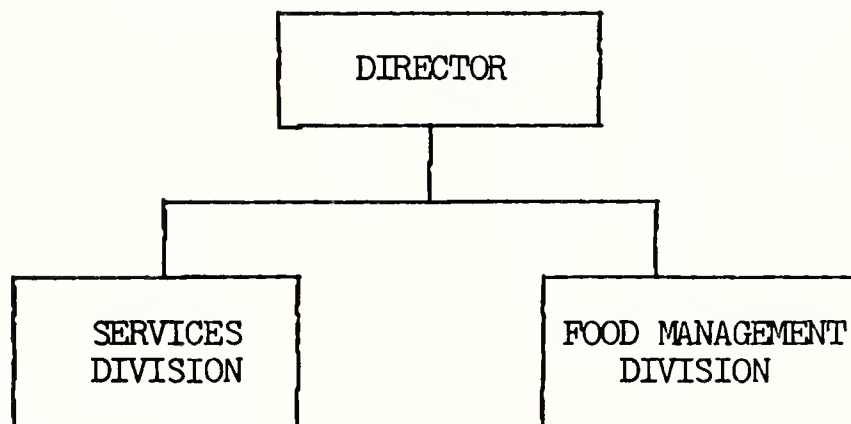

The Air Force Engineering and Services Center provides specialized engineering and services, technical assistance, and operating support to Air Force bases and organizations. This includes food, laundry, dry cleaning, and linen exchange services; regional civil engineering; and the highly specialized, interdisciplinary civil engineering functions.

### DIRECTORATE OF HOUSING AND SERVICES

The Directorate of Housing and Services provides research, development, and support to Air Force bases and organizations. This includes food, laundry, dry cleaning, and linen exchange services.

DEPARTMENT OF DEFENSE  
DEPARTMENT OF THE AIR FORCE  
AIR FORCE ENGINEERING AND SERVICES CENTER  
DIRECTORATE OF HOUSING AND SERVICES

## DEPARTMENT OF THE ARMY

### U.S. ARMY HEALTH SERVICES COMMAND

The Commanding General, U.S. Army Health Services Command, performs health services for the Army within the United States and, as directed, for other governmental agencies and activities. He is further responsible for the development of medical doctrine, concepts, organizations, materiel requirements, and systems in support of the Army.

### U.S. ARMY MATERIEL DEVELOPMENT AND READINESS COMMAND

The Commanding General, U.S. Army Materiel Development and Readiness Command, develops and provides materiel and related services to the Army, to Army elements of unified commands and specified commands, and to other United States and foreign agencies as directed. His principal functions include research; development; product, production, and maintenance engineering; testing and evaluation of materiel; production and procurement of materiel; inventory management; and storage and distribution, maintenance, transportation, and disposal of materiel.

### U.S. ARMY NATICK RESEARCH AND DEVELOPMENT CENTER

The U.S. Army Natick Research and Development Center (NRDC) is concerned with problems that occur in the course of sustaining and protecting military personnel engaged in combat activities. One program objective that guides the Management and the Technical Staffs is to develop foods, food services, and feeding systems that interface with military tactics and logistics.

### DIRECTORATE FOR ENGINEERING PROGRAMS MANAGEMENT

The management responsibilities of the Directorate for Engineering Programs Management (DEPM) include the engineering program areas of standardization, quality assurance, testing, value engineering, product improvement, production base support, integrated logistics support, and requirement definition. The DEPM plans, directs, coordinates, and executes NRDC responsibility in these areas.

### DOCUMENT PREPARATION DIVISION

The Document Preparation Division is responsible for matters pertaining to preparation, coordination, resolution of comments, approval of military specifications, handbooks, engineering practices studies, and Qualified Products Lists.

### FOOD ENGINEERING LABORATORY

The Food Engineering Laboratory is responsible for scientific and engineering efforts to provide feeding systems, including rations, ration components, packaging, and food service equipment.

## FOOD TECHNOLOGY DIVISION

The Food Technology Division is responsible for planning, organizing, coordinating, and conducting research, development, production engineering, and standardization of rations, foods, and subsistence packaging systems for the Armed Forces. It is responsible for technical adequacy of specifications, standards, and purchase descriptions for food and food packaging.

## U.S. ARMY TROOP SUPPORT AGENCY

The mission of the U.S. Army Troop Support Agency entails staff management of the Army food program which encompasses 1,100 active and 4,000 reserve component dining facilities, 107 troop issue subsistence activities, 35 baking plants, about 48,000 food service personnel, and over \$300,000,000 per year in raw food expenditures.

## DEPARTMENT OF THE NAVY

The primary mission of the Navy is to protect the United States, as directed by the President or the Secretary of Defense, by the effective prosecution of war at sea including, with its Marine Corps component, the seizure or defense of advanced naval bases; to support, as required, the forces of all military departments of the United States; and to maintain freedom of the seas.

## NAVY FOOD SERVICE SYSTEMS OFFICE

The mission of the Navy Food Service Systems Office is to administer Navy food service programs which include:

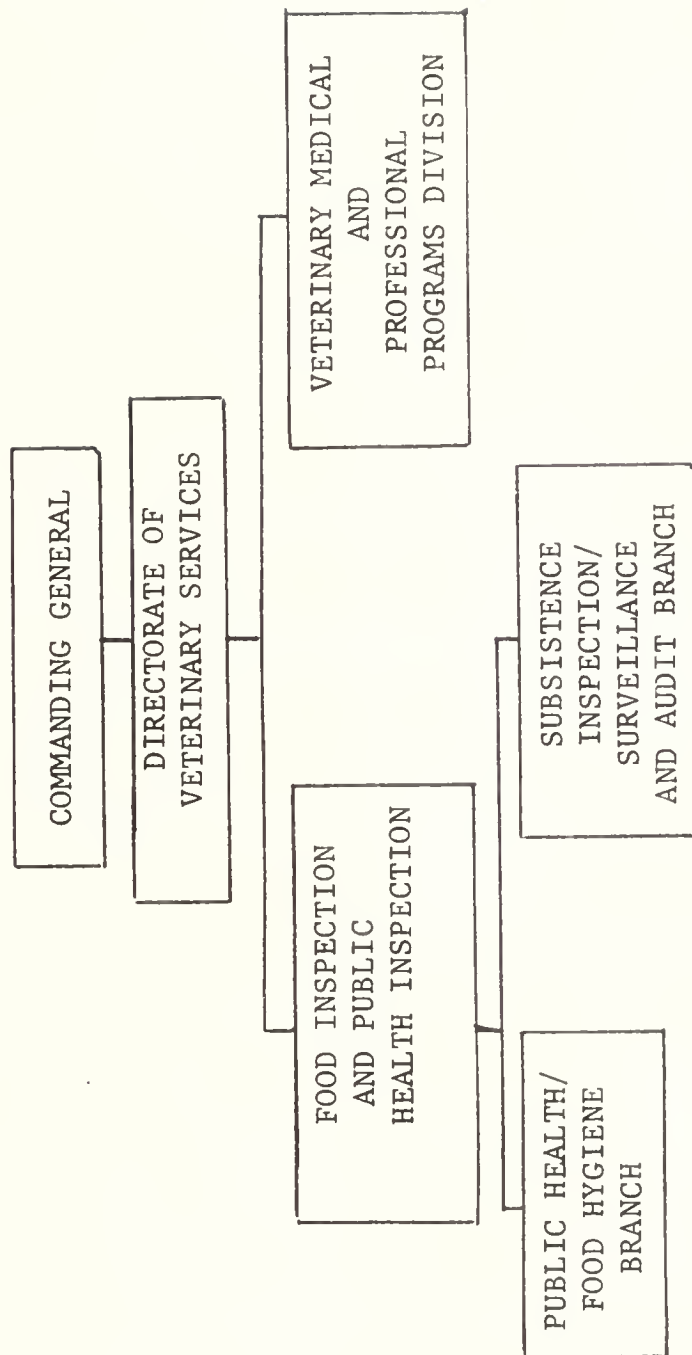

1. Technical direction and financial control of Navy enlisted dining facilities.
2. Administration and technical guidance for Navy enlisted dining facilities worldwide.

## U.S. MARINE CORPS

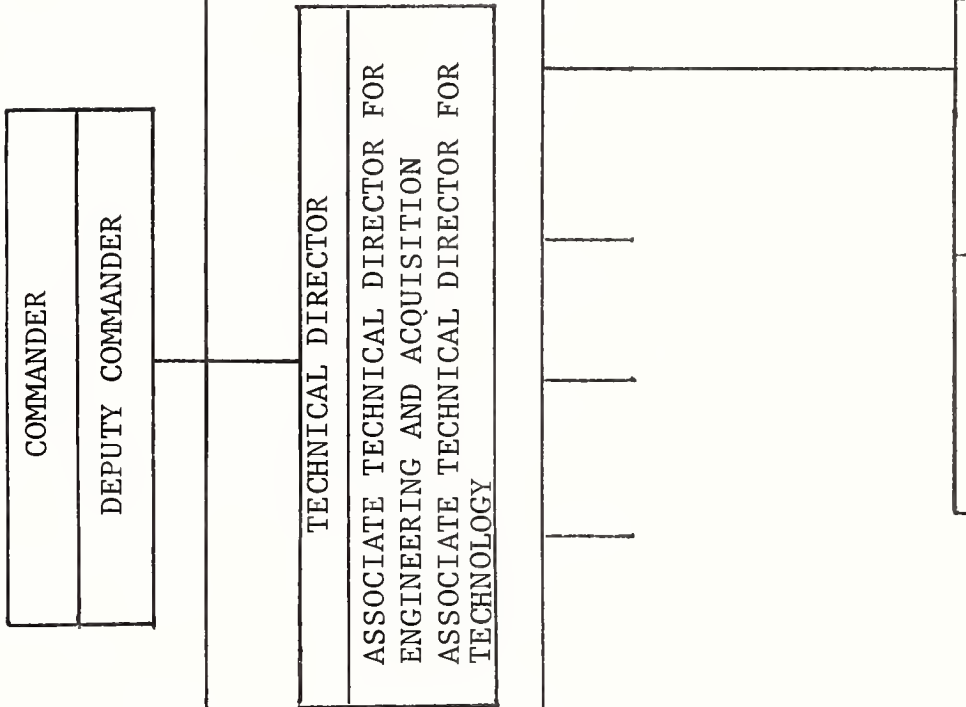

The primary mission assigned to the Marine Corps is to provide Fleet Marine Forces of combined arms, together with supporting air components for service with the Fleet, for deployment in the seizure or defense of advanced naval bases and for the conduct of such land operations as may be essential to the prosecution of a naval campaign.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

The Department of Health and Human Services (DHHS) was established on October 17, 1980. It is the Cabinet-level department of the Federal executive branch most concerned with people and most involved with the Nation's human concerns.

### PUBLIC HEALTH SERVICE

The Public Health Service has its origin in an act of July 16, 1798 (ch. 77, 1 Stat. 605), authorizing marine hospitals for the care of American merchant seamen. Subsequent legislation has vastly broadened the scope of its activities. These activities include health services for the American Indians and Alaska Natives and the Food and Drug Administration (FDA).

### ALCOHOL, DRUG ABUSE, AND MENTAL HEALTH ADMINISTRATION

The mission of the Alcohol, Drug Abuse, and Mental Health Administration is to provide leadership in the Federal effort to reduce, and eliminate where possible, health problems caused to the people of the United States by the abuse of alcohol and drugs, and to improve the mental health of the United States generally.

### FOOD AND DRUG ADMINISTRATION

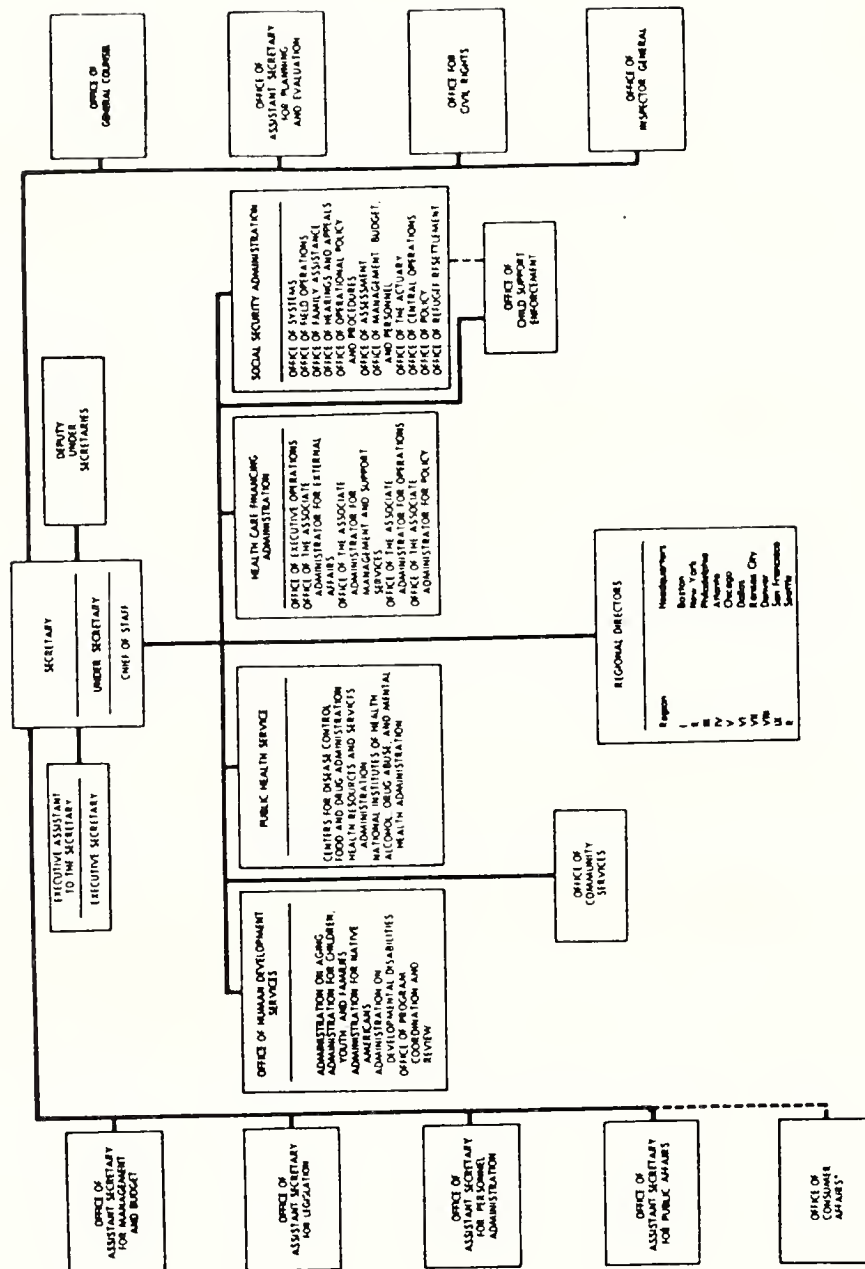

The name "Food and Drug Administration" was first provided by the Agriculture Appropriation Act of 1931, approved May 27, 1930 (46 Stat. 392), although similar law enforcement functions had been in existence under different organizational titles since January 1, 1907, when the Food and Drug Act of 1906 (34 Stat. 768; 21 U.S.C. 1-15) became effective.

The FDA's activities are directed toward protecting the health of the Nation against impure and unsafe foods, drugs and cosmetics, and other potential hazards.

### CENTER FOR FOOD SAFETY AND APPLIED NUTRITION

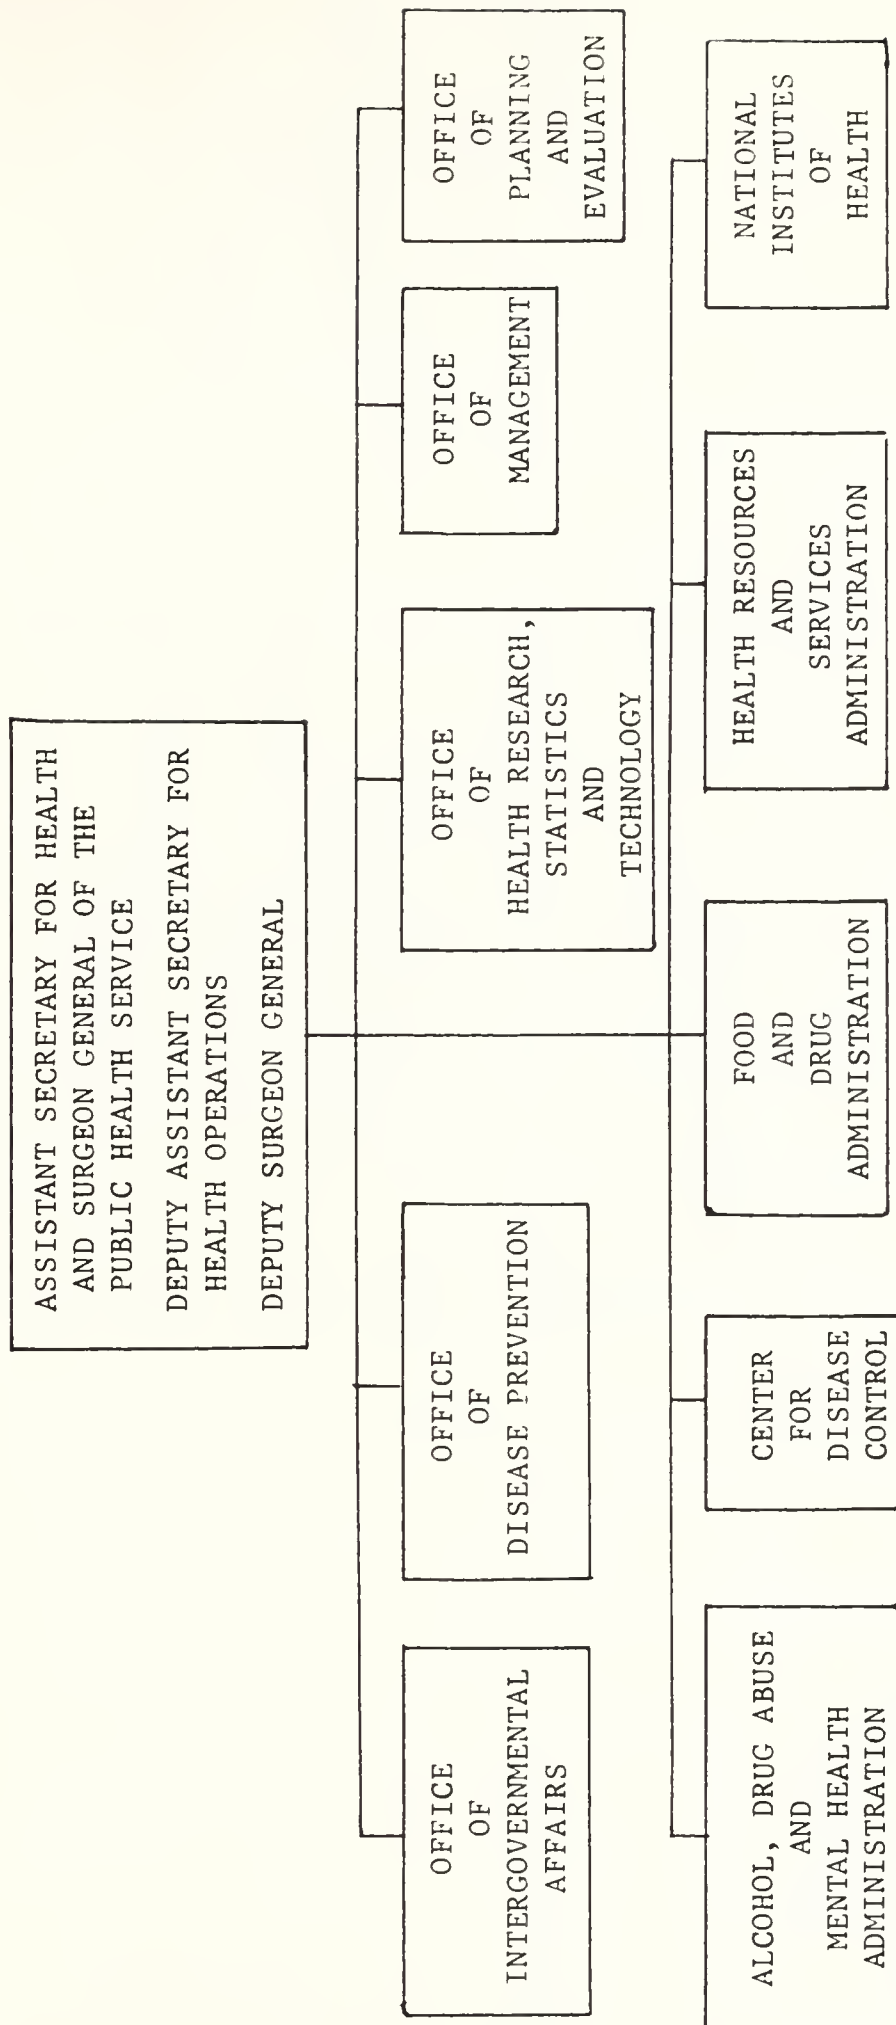

The Center for Food Safety and Applied Nutrition conducts research and develops standards on the composition, quality, nutrition, and safety of foods, food additives, colors, and cosmetics; conducts research designed to improve the detection, prevention, and control of contamination that may be responsible for illness or injury conveyed by foods, colors, and cosmetics; coordinates and evaluates FDA's surveillance and compliance programs relating to foods, color, and cosmetics; reviews industry petitions and develops regulations for food standards to permit the safe use of color additives and food additives; collects and interprets data on nutrition, food additives, and environmental factors affecting the total chemical result posed by food additives; and maintains a nutritional data bank.

## HEALTH RESOURCES AND SERVICES ADMINISTRATION

The mission of the Health Resources and Services Administration is to provide professional leadership in the delivery of health services.

### INDIAN HEALTH SERVICE

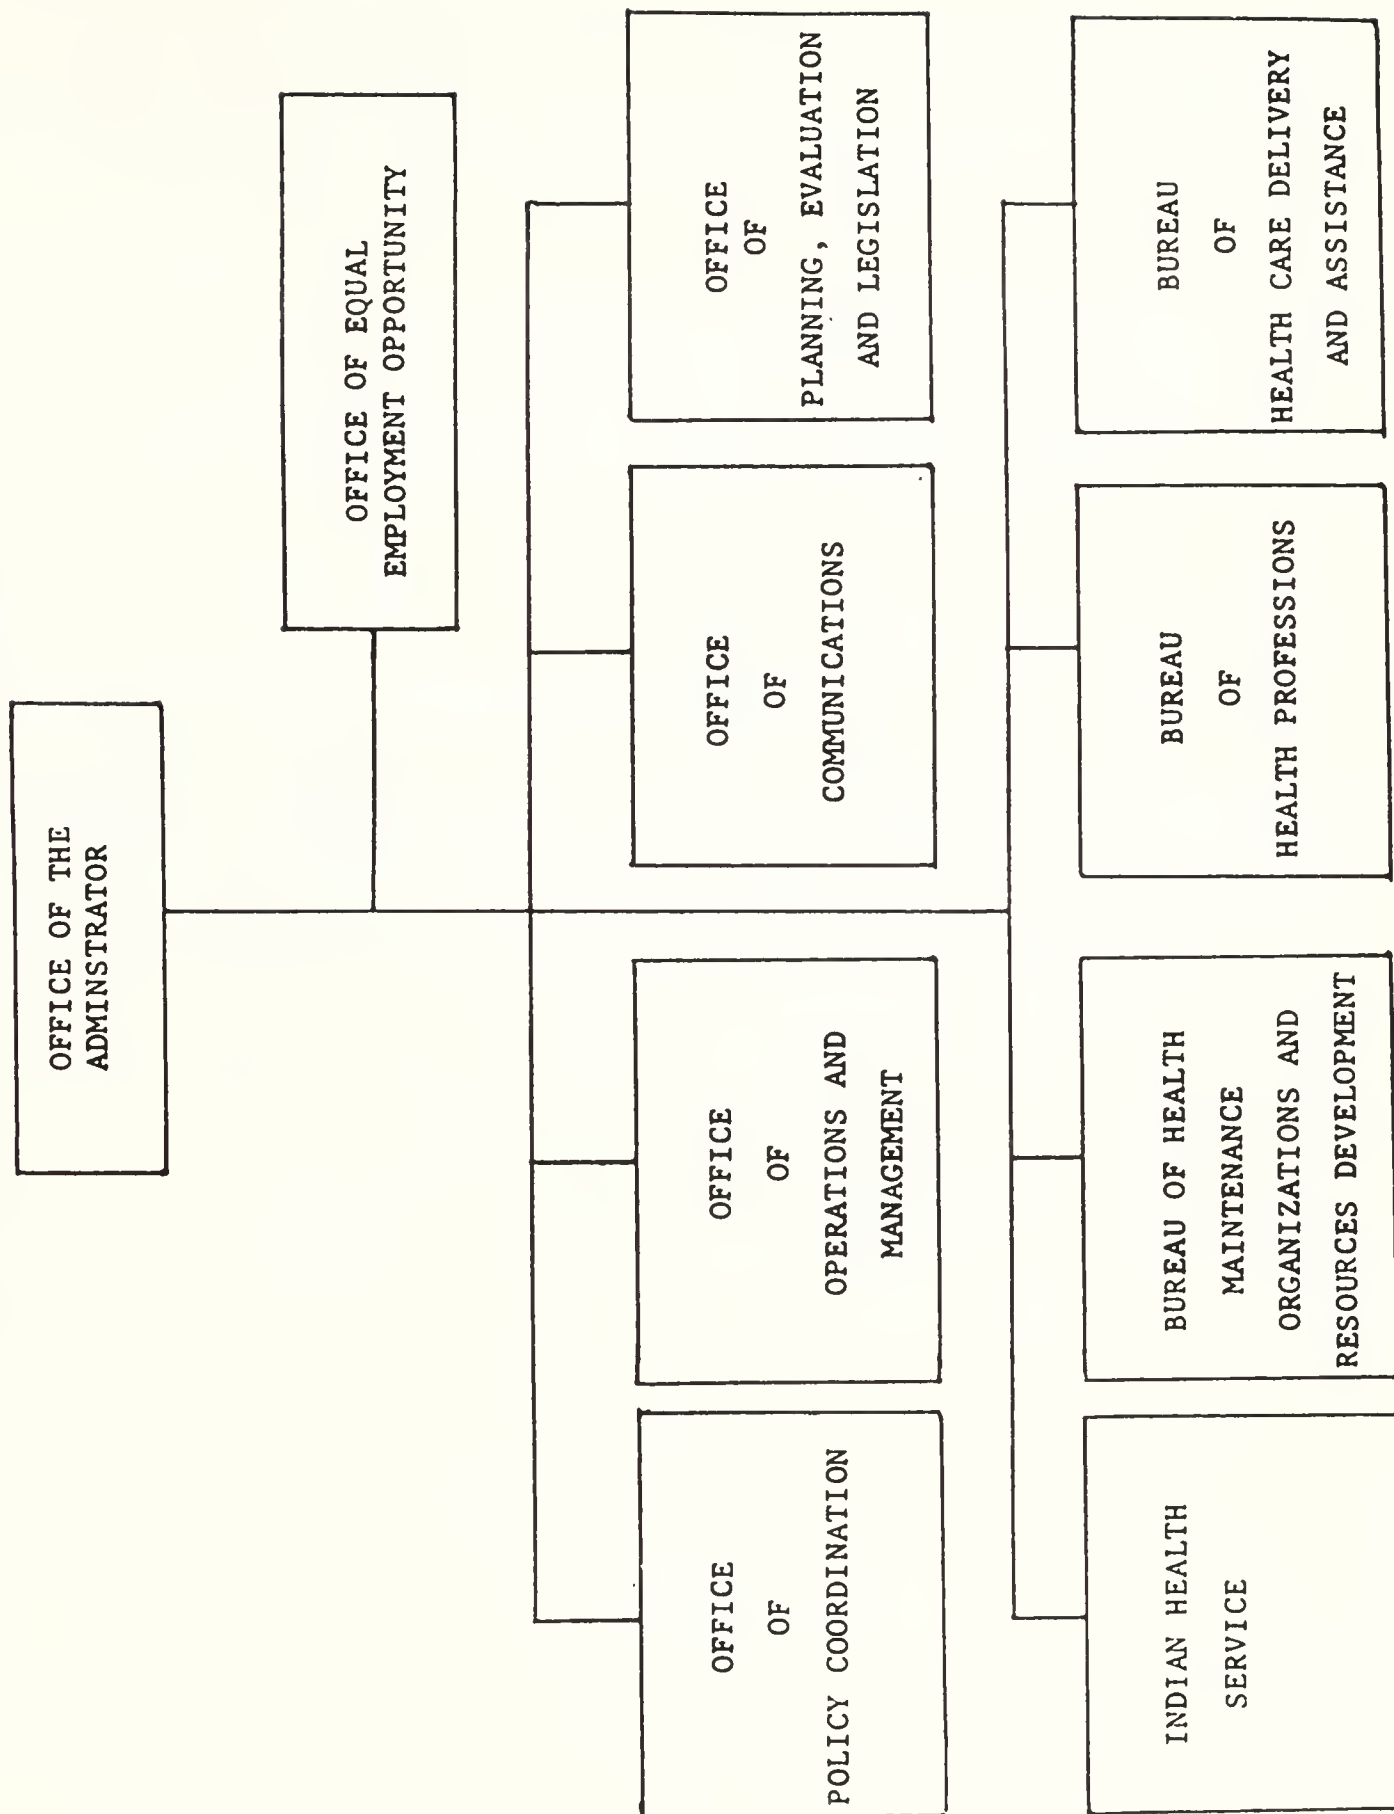

The Indian Health Service operates a program of comprehensive health services for eligible American Indians and Alaska Natives; provides hospital and medical care services and preventive and rehabilitative health services; develops innovative health services delivery systems; conducts tuberculosis and other communicable disease control activities; promotes self-determination of Indian people through community development and participation in program operation and administration; encourages and assists in the development of water supply and waste disposal systems; and provides training for health personnel.

### NATIONAL INSTITUTES OF HEALTH

The mission of the National Institutes of Health (NIH) is to improve the health of the American people. To carry out this mission, NIH conducts and supports biomedical research into the causes, prevention, and cure of diseases; supports research training and the development of research resources; and makes use of modern methods to communicate biomedical information.

## DEPARTMENT OF JUSTICE

The Department of Justice (DOJ) was established by the act of June 22, 1870. As the largest law firm in the Nation, DOJ serves as counsel for its citizens. The Department also plays a significant role in protecting citizens through its efforts for the effective law enforcement, crime prevention, crime detection, and prosecution and rehabilitation of offenders.

### BUREAU OF PRISONS

The Bureau of Prisons, which includes the Federal Prison System (FPS), is an integral part of the Federal criminal justice system, and its primary mission is to protect society. The Bureau is responsible for the care and custody of those persons convicted of Federal crimes and sentenced by the courts to serve a period of time incarcerated in a Federal penal institution.

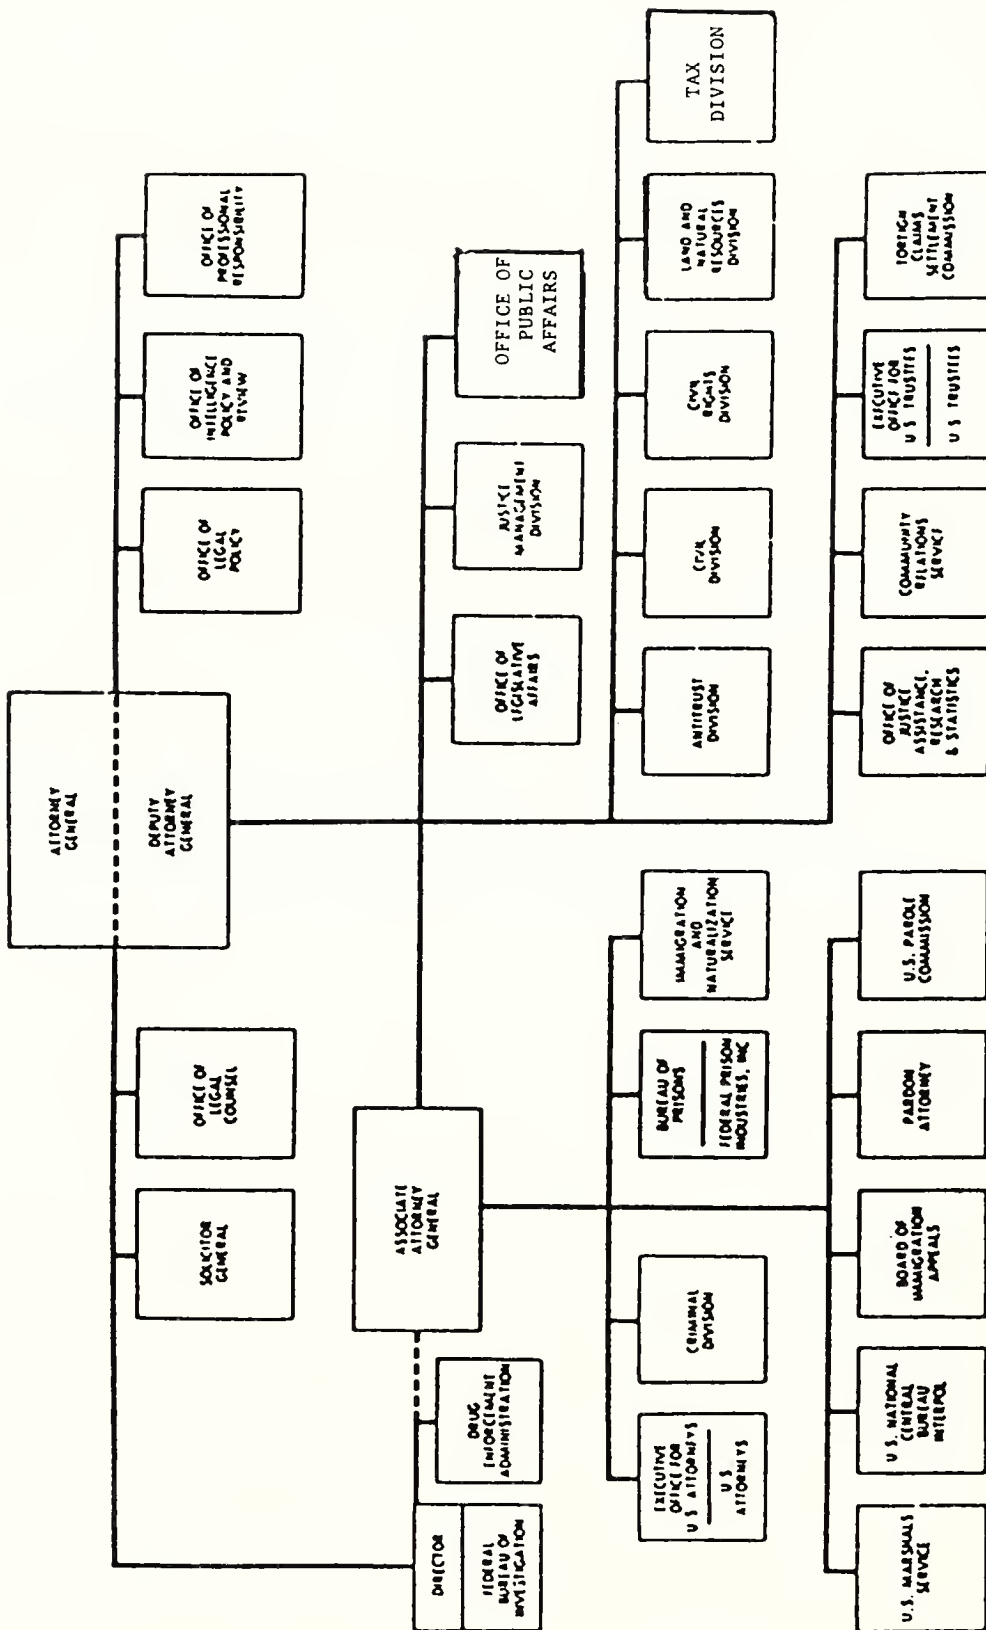

### FOOD SERVICE OPERATIONS

Within FPS, the administrator of food service oversees the food service operations of 42 institutions in five regions.

## GENERAL SERVICES ADMINISTRATION

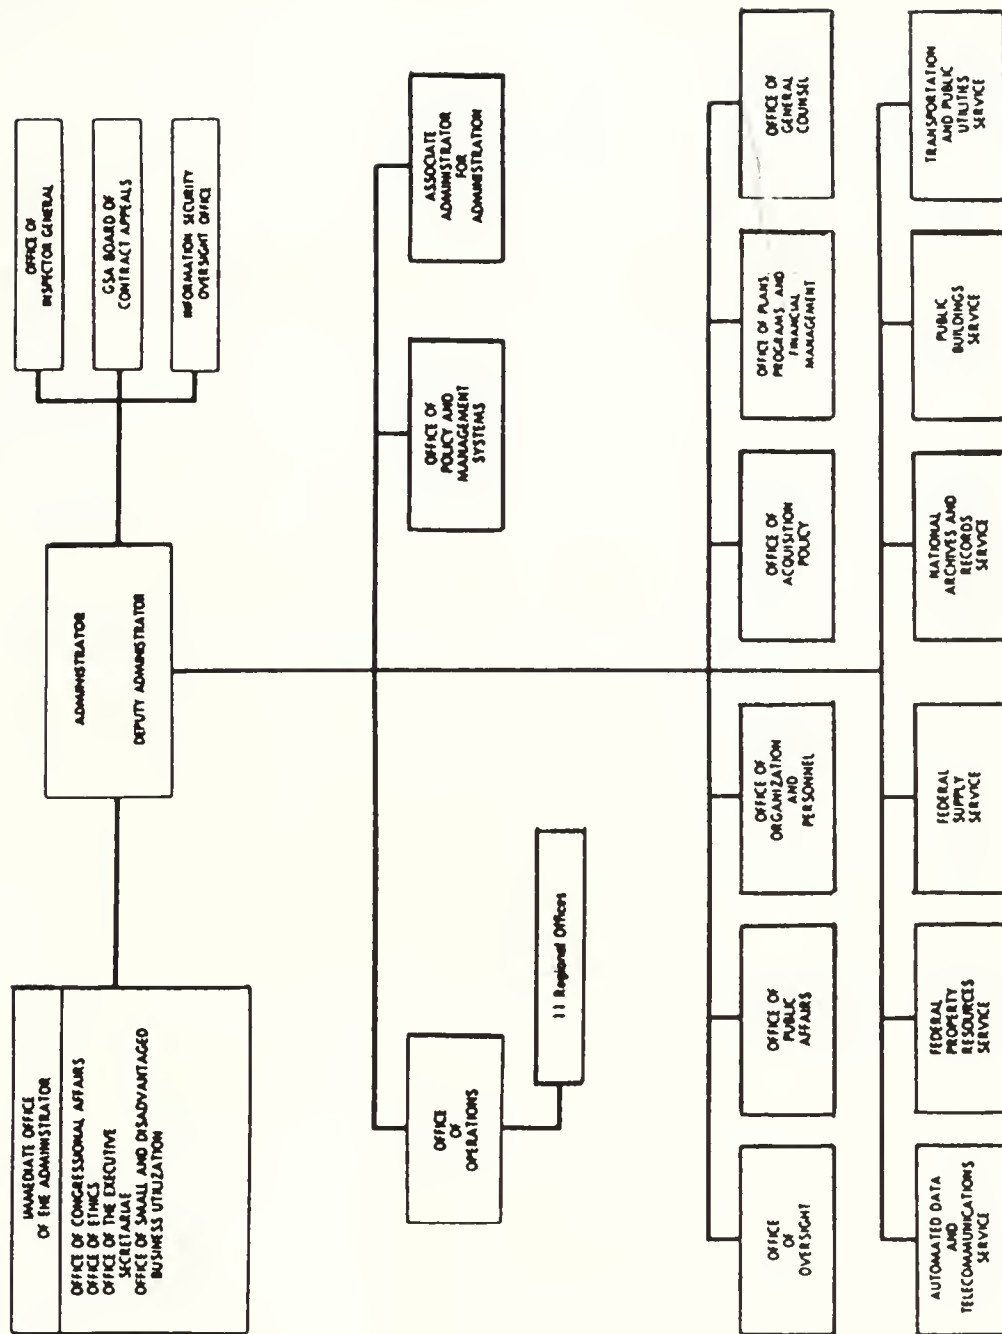

The General Services Administration (GSA) was established on July 1, 1949. GSA is the civilian management activity for all Federal specifications, interim Federal specifications, and Commercial Item Descriptions within the Federal Government except for food product descriptions in Federal Supply Group 89-Food. Responsibility for management of this FSG was delegated to USDA on September 25, 1979.

### FEDERAL SUPPLY AND SERVICES

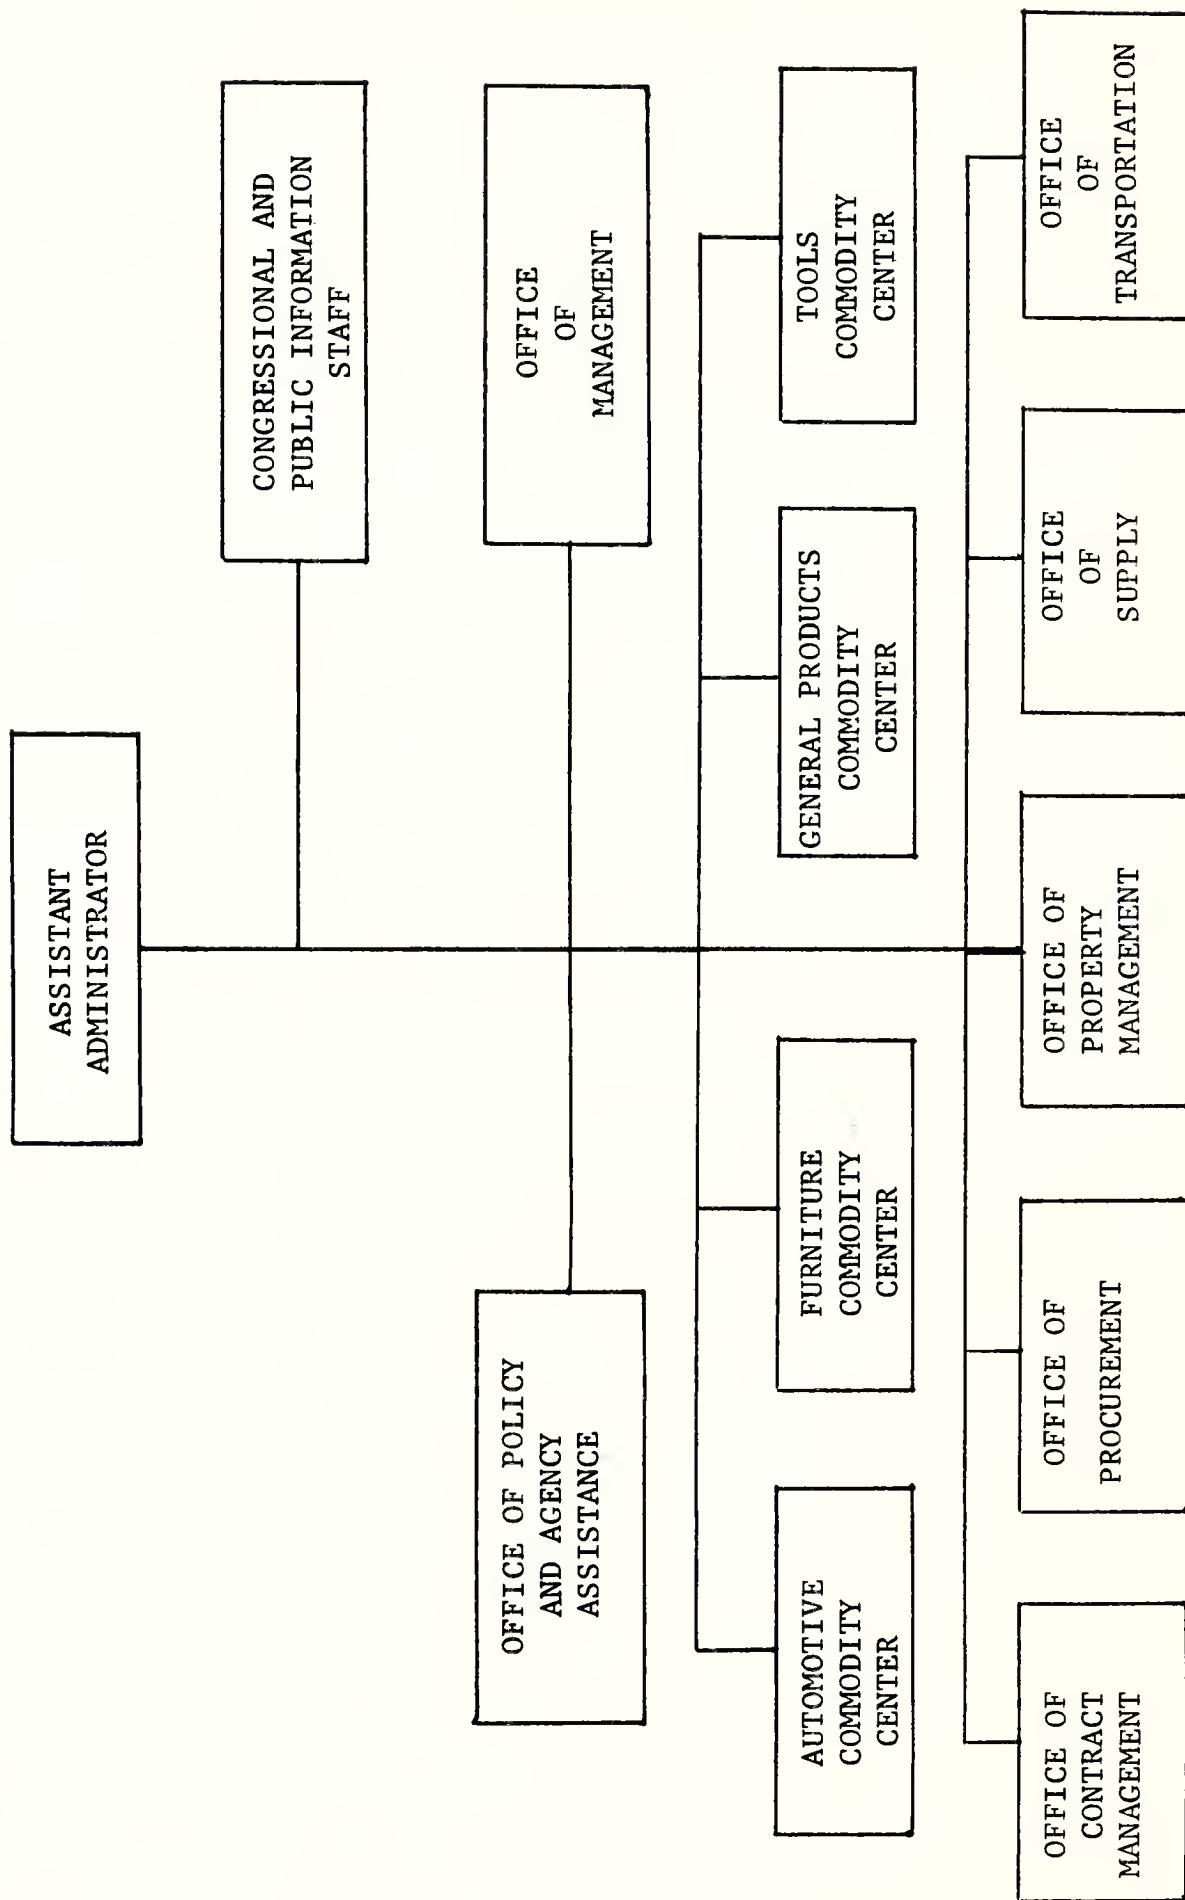

The Federal Supply and Services (FSS) is responsible for operating a government-wide service and supply system. FSS provides procurement support to Federal agencies on a worldwide basis. Approximately \$2.8 billion worth of supplies, materials, and services are procured yearly. Within FSS's Office of Procurement, the Commodity Management Division (FCM) is responsible for printing, indexing, and distribution of food product descriptions in FSG 89-Food.

## OFFICE OF MANAGEMENT AND BUDGET

The Office of Management and Budget (OMB) was established in the Executive Office of the President pursuant to Reorganization Plan 2 of 1970, effective July 1, 1970. The Office of Federal Procurement Policy (OFPP) is included in OMB.

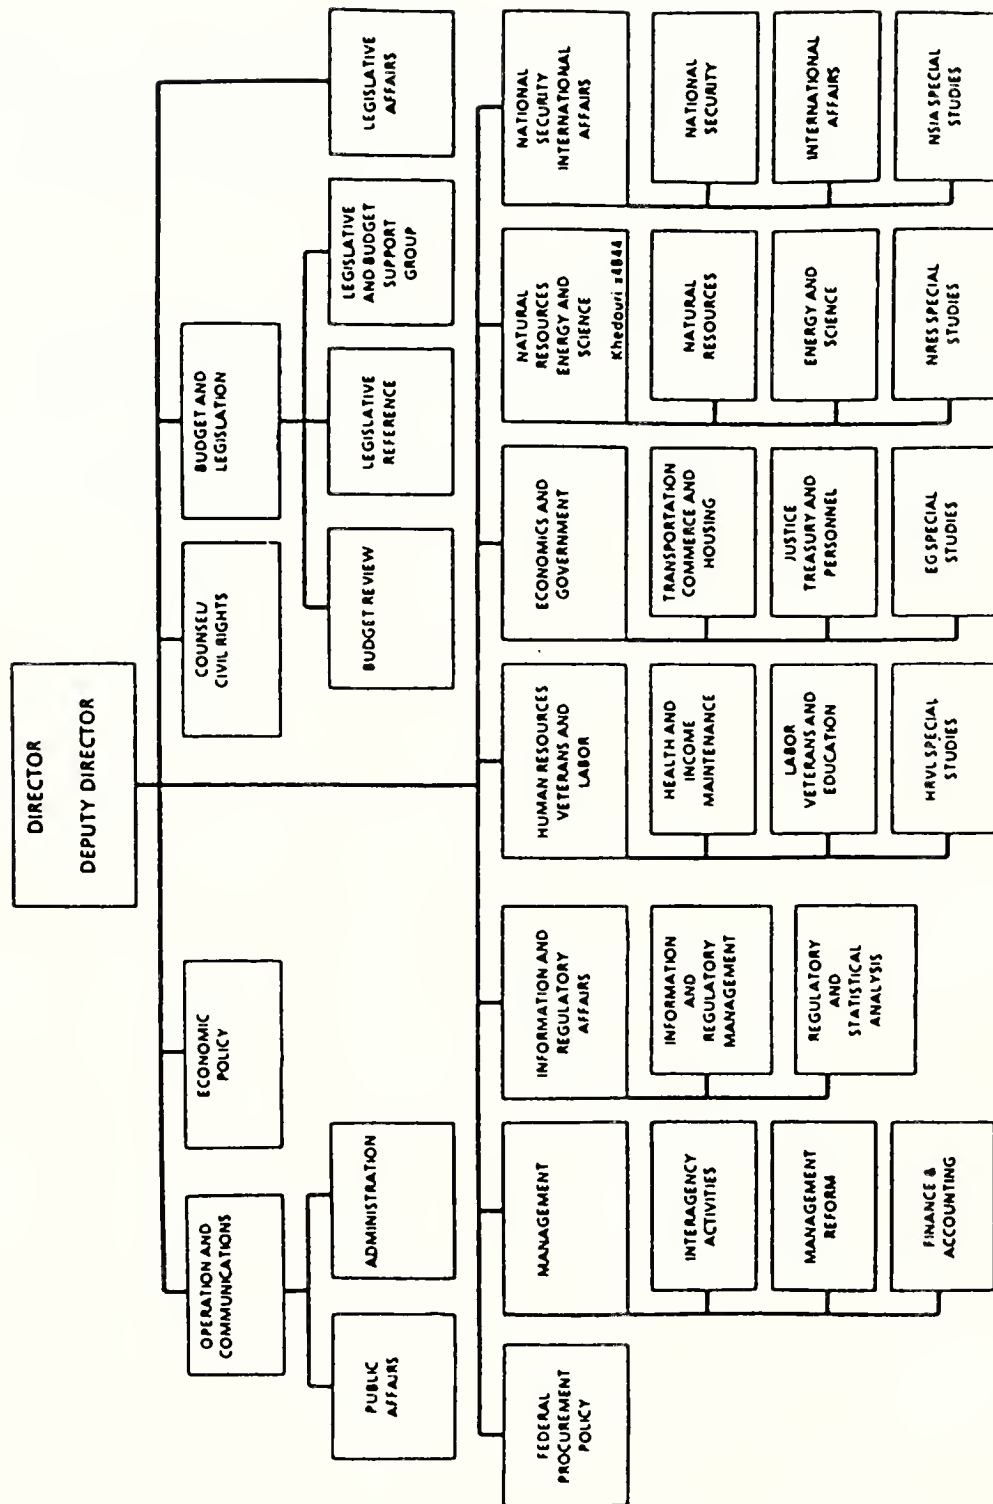

### OFFICE OF FEDERAL PROCUREMENT POLICY

OFPP was established to improve the economy, efficiency, and effectiveness of the procurement processes by providing overall direction of procurement policies, regulations, procedures, and forms. The establishment of OFPP implemented the first recommendation made by the Commission on Government Procurement in its report to Congress in December 1972. OFPP has oversight responsibility for the GFQAP.

## VETERANS ADMINISTRATION

The Veterans Administration (VA) was established as an independent agency under the President by Executive Order 5398 of July 21, 1930. A thorough system of benefits for veterans and dependents is administered by VA.

The Department of Medicine and Surgery provides hospital, nursing home and domiciliary care, and outpatient medical and dental care to eligible veterans of military service in the Armed Forces. It operates 172 hospitals, 16 domiciliaries, 226 clinics, and 100 nursing home units in 193 cities in the United States, the Commonwealth of Puerto Rico, and the Republic of the Philippines, and provides for similar care under VA auspices in non-VA hospitals and community nursing homes, and for visits by veterans to non-VA physicians and dentists for outpatient treatment. The Department also supports veterans under care in hospitals, nursing homes, and domiciliaries operated by 30 States and the District of Columbia.

### OFFICE OF PROCUREMENT AND SUPPLY

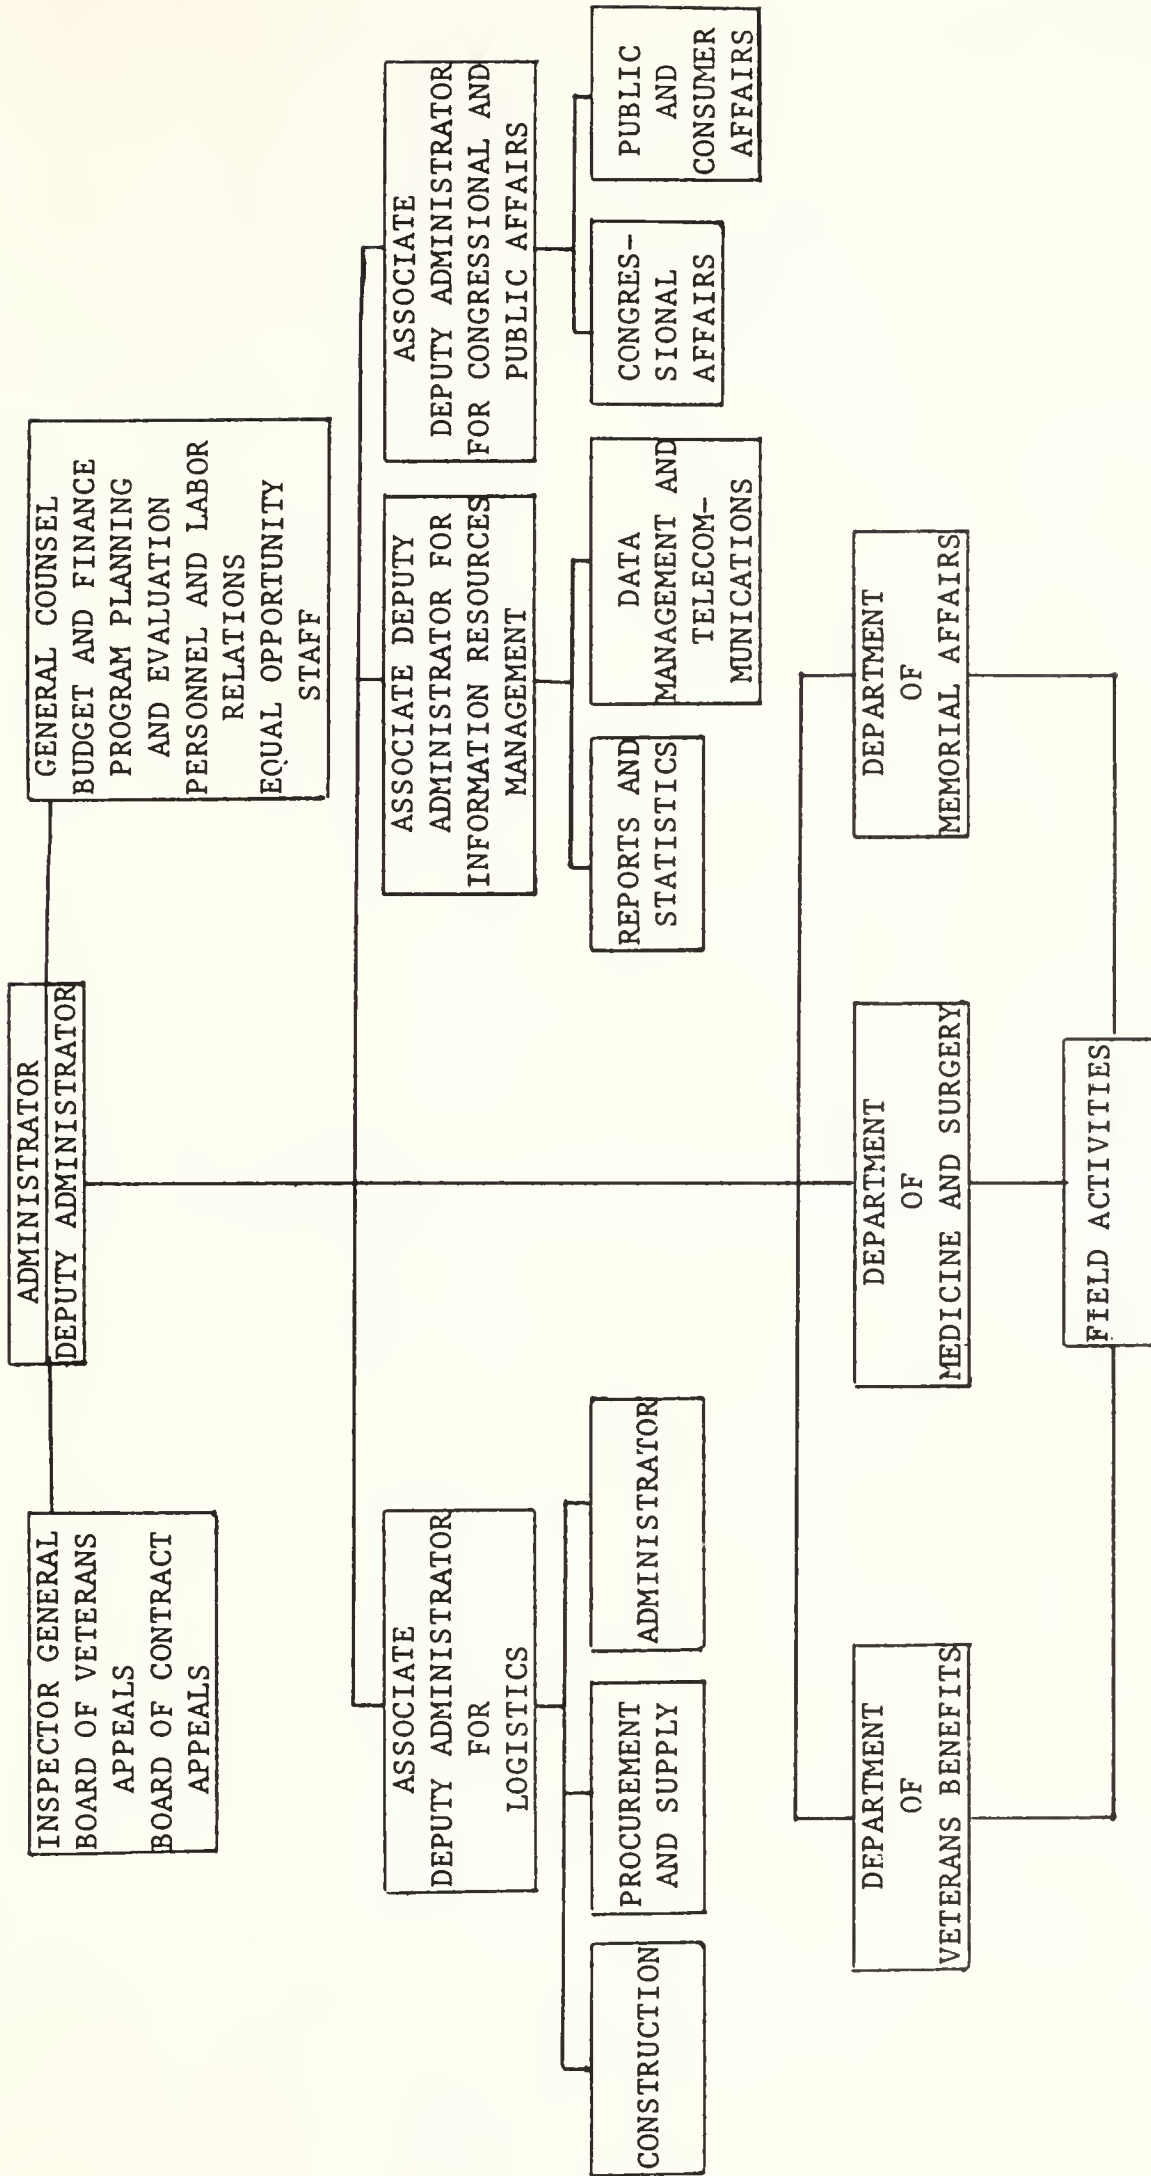

The VA Office of Procurement and Supply, under the direction of the Director for Procurement and Supply, administers the agency's acquisition and supply programs. The Office of Procurement and Supply is responsible for the formulation of plans, policies, and procedures for the acquisition, distribution, use, and disposal of personal property and nonpersonal services.

### VETERANS ADMINISTRATION MARKETING CENTER

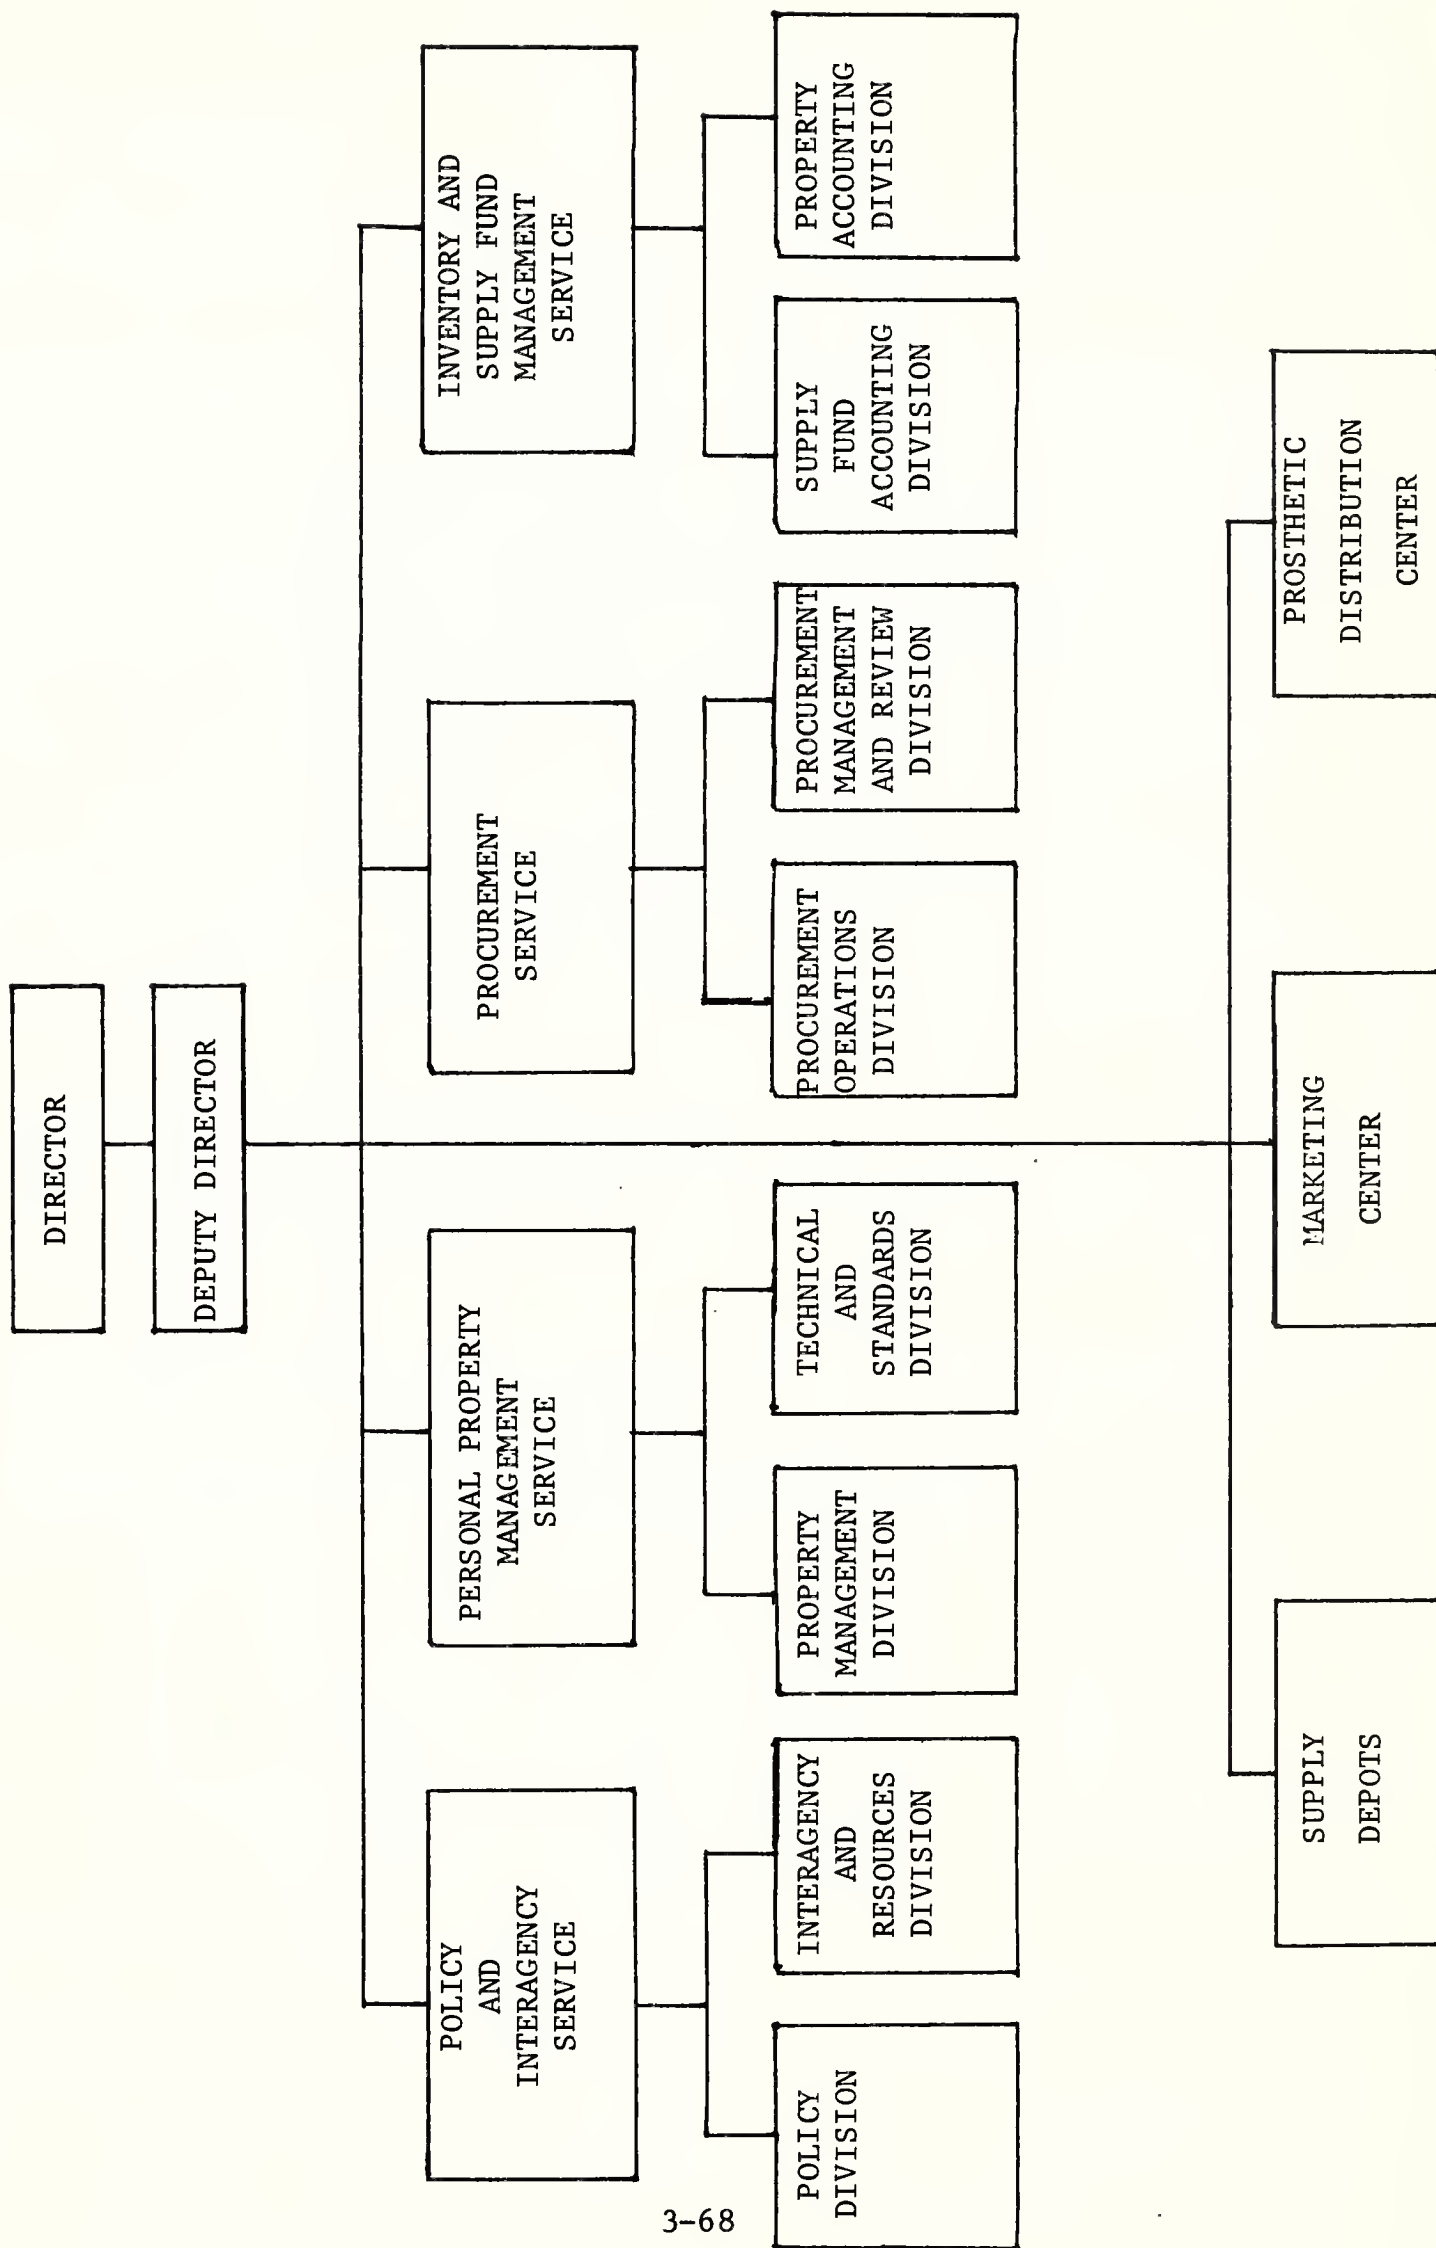

The VA Marketing Center purchases nonperishable food items for VA medical centers and furnishes supply support of nonperishable food items to other civil agencies.

```

## PART 4

### COORDINATING ACTIVITIES

Coordinating Activity Definition: An activity, consisting of a committee or an organization, which provides input to MRD for use in its management of the GFQAP.

## DEFENSE MATERIEL SPECIFICATIONS AND STANDARDS OFFICE

Within DOD, responsibility for policies and procedures governing standardization, including the preparation, coordination, and maintenance of specifications and standards, rests with the Under Secretary of Defense for Research and Engineering. The Defense Materiel Specifications and Standards Office is assigned responsibility for administering and managing the Defense Standardization and Specifications Program, including establishing policies, procedures, program guidance, and controls. These embrace standardization policies governing:

Specifications,

Standards,

Handbooks,

Qualified products lists,

Adopted non-government standards,

Commercial Item Descriptions,

Document format and content,

Coordination procedures,

Document maintenance,

Program planning and guidance,

Data acquisition, and

Item reduction.

## DEPARTMENT OF DEFENSE FOOD PLANNING BOARD

The Department of Defense Food Planning Board, chaired by the Deputy Director, Materiel Management Systems Division of the Office of the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics), is a board comprised of the senior food service members of the Military Services and DLA, whose role is to assist in providing policy guidance and direction to the DOD food service program. It meets once each quarter to discuss and resolve policy problems relating to all aspects of troop feeding. It is responsible for formulating and recommending systems policy covering such areas as:

Package development and improvement;

Procurement and supply;

Quality assurance;

Food preparation and service systems;

Energy use;

Manpower personnel resources, quality training and utilization;

Nutrition;

Research and development;

Finance and accounting;

Management information systems; and

Food service facilities.

The board has established three permanent committees to assist it in meeting its policy guidance responsibility, namely, the Armed Forces Menu Service Committee, the Armed Forces Product Evaluation Committee, and the Armed Forces Recipe Service Committee.

## ARMED FORCES MENU SERVICE COMMITTEE

This committee is chaired by the U.S. Army with technical representatives from each of the Military Services. It is responsible to the DOD Food Planning Board for developing a standardized DOD-wide menu service. Included among its functions are such things as:

Developing and maintaining a cyclic menu which can be used by all Services in land warfare feeding and for feeding in other environments;

Developing a menu which meets patron acceptability and preference; and

Evaluating and implementing improved menu planning methods, such as automated menu planning, and determining appropriate criteria and constraints.

## ARMED FORCES PRODUCT EVALUATION COMMITTEE

This committee is chaired by the U.S. Army and is comprised of the members from each of the Military Services. It is responsible to the DOD Food Planning Board for determining the food items to be used in the Armed Forces' food program and for initiating requests for development of new food items and packages and for changes to assigned items. Specific functions include but are not limited to:

Evaluating unsolicited food items offered for use in the military feeding program;

Evaluating new items generated through research and development in processing, packaging, or preserving;

Establishing a need for new or technically improved food items or packaging and initiating development of regulations;

Coordination of food item specification changes;

Item substitution;

Assisting and resolving specification and procurement problems; and

Continually reviewing all food items in the DOD supply system for the purpose of deleting or adding items as appropriate.

## MARKET RESEARCH AND DEVELOPMENT DIVISION

MRD is responsible for managing the GFQAP which manages the Federal product description system for food items, as well as associated quality assurance policies and procedures for food procured by Federal agencies using appropriated funds. The Food Quality Assurance Branch coordinates with user agencies; research and development groups; preparing, procuring, and coordinating activities; and industry issues leading to the development and approval of government-wide food product descriptions and quality assurance procedures that will better serve government user needs.

14th Street and Independence Avenue, SW  
Washington, DC 20250

Dr. Harold S. Ricker, Acting Director  
Market Research and Development Division  
USDA/AMS  
Room 0608, South Building  
Phone: (202) 447-7191

Phone: (312) 681-6888 or FTS 387-6888

Mr. Martinez is the coordinator for VA catalogs (NSNs for VA use) and for civilian agencies regarding Handbook H-6.

## PART 5

### USER AGENCIES

User Agency Definition: For the purposes of the GFQAP, a user agency is defined as a government agency or any unit of a government agency having major responsibility for administering programs which involve food services (meals) or the distribution of food packages to groups or individual consumers. Such agencies identify the characteristics of the foods needed to meet established nutritional goals or requirements. In addition, these agencies provide feed-back with regard to food procured by the Federal Government using appropriated funds.

## DEPARTMENT OF AGRICULTURE

### FOOD AND NUTRITION SERVICE

#### Federal Food Assistance Programs

FNS is defined as a user agency, since this agency has major responsibility for establishing policies and procedures and managing at the Federal level food service programs operated under the Child Nutrition Programs. In addition, FNS administers the FDP which provides foods to schools, charitable institutions, nutrition programs for the elderly, summer camps, disaster relief agencies, needy family programs, some Indian agencies, and the Commodity Supplemental Food Program. This last Program provides food packages to pregnant and postpartum women, and infants and children up to age 6 determined to be at nutritional risk.

Foods procured with federally appropriated dollars by USDA are used in the several food assistance programs administered by FNS. The purpose of the food assistance programs is to improve the nutritional status of the Nation's children and low income adults.

Foods used in the Program are generally acquired under price support and surplus-removal legislation, and donated to local program outlets through cooperating State agencies. The volume and variety of donated foods purchased under this legislation may fluctuate in relation to agricultural marketing conditions. However, the Department does have special purchasing authority to acquire foods for certain feeding programs which by law must receive a minimum level of food assistance.

Six separate child nutrition programs are administered by FNS, namely, the National School Lunch Program, School Breakfast Program, Child Care Food Program, Summer Food Service Program for Children, Special Milk Program, and Food Service Equipment Assistance Program. Although they are separate programs, they share a common goal to safeguard the health and well-being of the nation's children.

Foods procured by USDA are distributed to eligible outlets participating in four of these Programs. A brief description of each of the Programs follows:

The National School Lunch Program helps provide nutritious lunches to the Nation's school children. All public and nonprofit private schools of high school grades and under and public and licensed, nonprofit, private residential child care institutions may participate in the Program. To receive Federal aid, schools and institutions must:

- a. Operate the lunch program on a nonprofit basis for all children;

- b. Serve nutritious lunches according to the requirements established by USDA;
- c. Provide lunches free and at a reduced price to children who qualify for such lunches, based on USDA income poverty guidelines; and
- d. Ensure that children receiving meals free or at a reduced price are not overtly identified.

The School Breakfast Program offers children a nutritious breakfast of foods which are easily prepared at school. The Program started as a pilot project aimed at schools with large numbers of needy children or students who traveled long distances to school. It is especially important in improving the diet of many children who, through no fault of their own, come to school without eating breakfast. Studies have repeatedly shown the direct correlation between good nutrition and good performance in school. Today, the Program is available to all public and nonprofit private schools of high school grades and under and to public and licensed, nonprofit, private residential child care institutions. Children who are eligible receive breakfast free or at a reduced price under the same guidelines used in the National School Lunch Program.

Schools and institutions are reimbursed based on the number of lunches served and whether they are paid, free, or reduced price. In addition to cash assistance, schools receive technical assistance, USDA-donated foods, and funds for nutrition education.

The Child Care Program provides nutritional benefits similar to those of the school food programs and operates year-round in nonresidential institutions, such as day care centers, Head Start centers, and family day care homes. Attending children receive nutritious breakfasts, lunches, suppers, and snacks. Assistance in the form of cash reimbursement and food donations are tied to the volume of meals and the relative need of children served. Funds for food service equipment are available to institutions lacking adequate food service facilities.

The Summer Food Service Program for Children spans the gap in the school food programs by providing meals to children during extended school vacation periods. It operates during the summer or during any school vacation of more than 3 weeks for schools with a continuous school year calendar. Any public or nonprofit private, nonresidential institution may sponsor the Program in areas where at least one-third of the children are eligible for free or reduced-price school meals. Camps may also sponsor the Program and receive reimbursement for meals served to economically needy children. All meals are served without charge to eligible children.

These Programs are authorized by the National School Lunch Act of 1946 and the Child Nutrition Act of 1966. The Programs are designed to help all children but focus particularly on children from low income families. In most instances, State educational agencies administer the Programs. The Federal Government provides cash and food assistance to the States for those schools and child care institutions which meet the requirements of the individual Programs.

At the local level, these Programs may be operated by public school districts, nonprofit private schools, and sponsoring agencies, such as public and nonprofit private day care centers, settlement houses, hospitals, orphanages, and the like. Local level schools and institutions employ several food service delivery systems in the day-to-day operation of providing nutritious meals to children participating in the Child Nutrition Programs.

### CONTACTS

#### Food Distribution Division

USDA/FNS  
3101 Park Center Drive  
Alexandria, VA 22302

Mr. Joseph E. Shepherd, Director  
Room 502  
Phone: (703) 756-3682

Mr. Jerome M. Stein, Special Assistant to the Director  
Room 502  
Phone: (703) 756-3682

#### Food Branch

Mr. Marvin Eskin, Chief  
Room 507  
Phone: (703) 756-3644

#### Reports and Programs Services Section

Ms. Virginia B. Ross, Section Head  
Room 507  
Phone: (703) 756-3644

## DEPARTMENT OF DEFENSE

Within DOD, the Services--Air Force, Army, Navy, and Marine Corps--are considered as user agencies. They are directly responsible for providing meals to men and women serving in the Armed Forces throughout the world.

### Department of the Air Force

The Department of the Air Force has a general troop feeding program for their dining facilities. The Air Force has special therapeutic and indigenous feeding programs in addition to in-flight feeding.

### Department of the Army

The Department of the Army maintains general troop feeding programs and uses food for special feeding purposes. In addition, the Department of the Army has need for military essential products. The Army has authorized reserve stockage programs using "B" rations and Long Range Patrol Rations. Food is also used in composite food packages; i.e., Meal, Ready-to-Eat. Another plan for food use is in the Meal, Combat, Individual.

### Department of the Navy

The Department of the Navy user activities use commercial and specialized food for the following purposes:

- a. Dining facilities,
- b. Flight rations and box lunches,
- c. Overseas and afloat use, and
- d. Submarines and ships.

### U.S. Marine Corps

The U.S. Marine Corps user activities use food for the following purposes:

- a. General troop feeding,
- b. Special feeding purposes (therapeutic and indigenous feeding programs),
- c. "B" rations and authorized reserved stockage programs, and
- d. Food to be used in complete food packages.

The Armed Forces Product Evaluation Committee is comprised of the members from each of the Military Services. It is responsible for determining the food items to be used in the Armed Forces' food program. It provides a single point of contact for submitting and evaluating food items for military use.

## PART 6

### TECHNICAL ACTIVITIES

#### SECTION A--TECHNICAL SUPPORT

#### SECTION B--FOOD RESEARCH

Technical Activity Definition: An activity responsible for technical support or food research necessary for product development.

- A. Technical Support: Those activities concerned with analytical test procedures and evaluations used for determining the composition and wholesomeness of food items and for determining compliance (or noncompliance) with regulatory or mandatory requirements, quality assurance provisions, or contractual conditions for such items.
- B. Food Research: Those activities concerned with:
  - 1. Development of new analytical procedures;
  - 2. Initiation of projects intended to result in the development of new food items;
  - 3. Development of new or modified methods of food preparation and processing;
  - 4. Evaluation of consumer responses to new or different food items; and
  - 5. Development of publications, information banks, supporting data, and statistical analyses dealing with new food items and procedures.

SECTION A--TECHNICAL SUPPORT

DEPARTMENT OF AGRICULTURE

AGRICULTURAL MARKETING SERVICE

Marketing Programs

Market Research and Development Division

USDA/AMS/MRD  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Dr. Harold S. Ricker, Acting Director  
Room 0608, South Building  
Phone: (202) 447-7191

Food Quality Assurance Branch

Ms. Joan Luck Russ, Chief  
Room 2957, South Building  
Phone: (202) 475-4939

MRD is responsible for maintaining food quality assurance policies and procedures for food procured by Federal agencies using appropriated funds. Quality assurance plans and testing methods are evaluated. New developments in food science, industry practices, which aid in the development of new, more efficient, and economical systems are analyzed.

Dairy Division

USDA/AMS/DA  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. Edward T. Coughlin, Director  
Room 2968, South Building  
Phone: (202) 447-4392

Dairy Grading and Standardization Branch

Mr. George W. Fry, Chief  
Room 2750, South Building  
Phone: (202) 447-3245

Grading Section

Mr. Robert G. Semerad, Head  
Room 2750, South Building  
Phone: (202) 447-3171

The Grading Section is responsible for the inspection, grading, and acceptance of dairy products.

### Grading Laboratory

Dr. James L. Dizikes, Chemist-in-Charge  
Grading Laboratory  
Dairy Grading and Standardization Branch  
USDA/AMS/DA  
Room 666, U.S. Custom House  
610 South Canal Street  
Chicago, IL 60607  
Phone: (312) 353-6525 or FTS 353-6525

This laboratory conducts laboratory analyses of dairy products and also does fat and salt analyses for beef products.

### Fruit and Vegetable Division

USDA/AMS/FV  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. Charles R. Brader, Director  
Room 2077, South Building  
Phone: (202) 447-4722

### Fresh Products Branch

Mr. Michael A. Castille, Chief  
Room 2052, South Building  
Phone: (202) 447-5870

### Grading Section

Mr. Ligon W. Johnson, Jr., Head  
Room 2058, South Building  
Phone: (202) 447-2482

Mr. Gilbert O. Hand, Assistant Head  
Room 2058, South Building  
Phone: (202) 447-6023

Mr. Donald T. Paradis, Assistant Head  
Room 2058, South Building  
Phone: (202) 447-6023

The Fresh Products Branch assures that fresh fruits and vegetables are graded in the plant or at destination to determine compliance with specifications or U.S. Grade Standards.

### Processed Products Branch

Mr. Joe A. Fly, Chief  
Room 0709, South Building  
Phone: (202) 447-4693

Mr. Quinton E. Cummings, Assistant Chief  
Room 0709, South Building  
Phone: (202) 447-4693

### Inspection Section

Ms. Patricia J. Lively, Head  
Room 0717, South Building  
Phone: (202) 447-5021

Mr. Alan H. Lish, Staff Officer  
Room 0713, South Building  
Phone: (202) 447-5021

Mr. Raymondo O'Neal, Staff Officer  
Room 0713, South Building  
Phone: (202) 447-5021

Mr. James R. Rodeheaver, Staff Officer  
Room 0713, South Building  
Phone: (202) 447-5021

The Processed Products Branch is responsible for the inspection and acceptance of processed fruits and vegetables. These products may be graded at origin or at destination to assure conformance with applicable specifications or U.S. Grade Standards.

### Processed Products Laboratory

Mr. Stephen E. Rayner, Staff Officer  
Room 0721, South Building  
Phone: (202) 447-5021

The Processed Products Laboratory does verification testing of coffee and tea for DPSC. This laboratory also does aflatoxin testing of peanuts and miscellaneous analyses for proteins, sugars, and acids.

### Processed Products Field Office

Ms. Sharon G. Hart-Braun, Officer-in-Charge  
Processed Products Field Office  
USDA/AMS/FV  
Room 1014, U.S. Custom House  
610 South Canal Street  
Chicago, IL 60607  
Phone: (312) 353-6215 or FTS 353-6215

This Processed Products Field Office conducts laboratory analyses on fruit and vegetable processed products and meat products. This laboratory does fat, salt, moisture, protein, and other analyses.

#### Livestock Division

USDA/AMS/LS  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. Thomas H. Porter, Director  
Room 2092, South Building  
Phone: (202) 447-5705

Mr. Paul M. Fuller, Deputy Director  
Room 2631, South Building  
Phone: (202) 447-4727

Mr. David K. Hallett, Deputy Director  
Room 2092, South Building  
Phone: (202) 447-3215

#### Meat Grading and Certification Branch

Mr. Eugene M. Martin, Chief  
Room 2628, South Building  
Phone: (202) 382-1246

Mr. Robert L. Leverette, Assistant Chief  
Room 2632, South Building  
Phone: (202) 382-1246

Mr. Barry L. Carpenter, Area Supervisor  
Room 2626, South Building  
Phone: (202) 382-1246

The Meat Grading and Certification Branch is responsible for the grading and acceptance of meat and meat items.

#### Poultry Division

USDA/AMS/PY  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. H. Connor Kennett, Jr., Director  
Room 3932, South Building  
Phone: (202) 447-4476

### Grading Branch

Mr. Donald A. Niebuhr, Chief  
Room 3938, South Building  
Phone: (202) 447-3271

Mr. Howard M. Magwire, National Supervisor  
Egg Products  
Room 3929, South Building  
Phone: (202) 447-7510

Mr. Raymond H. Greenfield, National Supervisor  
Poultry  
Room 3933, South Building  
Phone: (202) 447-2098

Mr. Joseph B. Beck, National Supervisor  
Shell Eggs  
Room 3933, South Building  
Phone: (202) 447-4411

The Grading Branch is responsible for the inspection, grading, and acceptance of poultry products, including shell eggs, egg products, and rabbits.

### FEDERAL GRAIN INSPECTION SERVICE

USDA/FGIS  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. David R. Galliard, Deputy Administrator  
Room 1628, South Building  
Phone: (202) 447-9170

#### Field Management Division

Mr. John W. Marshall, Director  
Room 1641, South Building  
Phone: (202) 382-0228

This division is responsible for procedures and standards and for compliance with specifications and standards for grain, rice, beans, peas, lentils, hay, hops, straw, and processed grain products.

Procedures Development Branch

Inspection Section

Mr. David M. Orr, Head  
Room 0628, South Building  
Phone: (202) 382-0252

The Procedures Development Branch is responsible for the grading, weighing, and acceptance procedures for rice, beans, peas, lentils, hay, hops, straw, processed grain products, and other miscellaneous commodities and for compliance with specifications or standards.

Quality Control and Testing Branch

Commodity Testing Section

Mr. Henry S. Ikeda, Laboratory Manager  
Commodity Testing Section  
Quality Control and Testing Branch  
USDA/FGIS/FMD  
Room 209, Building 306, BARC-East  
Beltsville, MD 20705  
Phone: (301) 344-2328

This section performs testing for inspections requiring laboratory analysis.

FOOD AND NUTRITION SERVICE

Nutrition and Technical Services Division

USDA/FNS/NTSD  
3101 Park Center Drive  
Alexandria, VA 22302

Ms. Alberta C. Frost, Director  
Room 602, Park Center Building  
Phone: (703) 756-3585

This division formulates and executes nutritional requirements for programs operated by FNS.

## FOOD SAFETY AND INSPECTION SERVICE

### MEAT AND POULTRY INSPECTION OPERATIONS

Dr. Ronald J. Prucha, Deputy Administrator  
Meat and Poultry Inspection Operations  
USDA/FSIS  
Room 344-E, Administration Building  
14th Street and Independence Avenue, SW  
Washington, DC 20250  
Phone: (202) 447-8803

MPIO administers a field inspection force of over 7,000 employees including about 1,500 veterinarians who enforce the inspection acts that govern meat and poultry products.

### MEAT AND POULTRY INSPECTION TECHNICAL SERVICES

Mr. John W. McCutcheon, Acting Deputy Administrator  
Meat and Poultry Inspection Technical Services  
USDA/FSIS  
Room 350-E, Administration Building  
14th Street and Independence Avenue, SW  
Washington, DC 20250  
Phone: (202) 447-2709

#### Standards and Labeling Division

USDA/FSIS/MPITS/S&LD  
300 12th Street, SW  
Washington, DC 20250

Mr. Robert G. Hibbert, Director  
Room 202, Annex Building  
Phone: (202) 447-6042

This division is responsible for compliance with labeling and standards for meat and poultry products.

#### Labeling Branch

Mr. Ronald R. Brewington, Chief  
Room 206, Annex Building  
Phone: (202) 447-5388

This branch is responsible for approving labels for meat and poultry items.

### Standards Branch

Dr. Daniel D. Jones, Chief  
Room 208, Annex Building  
Phone: (202) 447-7503

This branch is responsible for assuring compliance with standards of meat and poultry items.

### SCIENCE

#### Food Ingredient Assessment Division

USDA/FSIS/SCI/FIAD  
300 12th Street, SW  
Washington, DC 20250

Mr. Donald D. Derr, Director  
Room 510, Annex Building  
Phone: (202) 447-7680

Ms. Elizabeth W. Murphy, Deputy Director  
Room 510, Annex Building  
Phone: (202) 447-7680

This division is responsible to perform, among other responsibilities, the following functions:

Coordinate the establishment of Agency nutritional policies,

Approve use of food additives in meat and poultry products,

Develop policy concerning the kinds of products which should be required to meet specific nutritional needs relative to the market the product is intended for, and

Develop guidelines and policies concerning the use of fortified non-meat and nonpoultry ingredients (such as vegetable proteins) in preparing finished meat and poultry products.

#### Product Safety Branch

Mr. Charles R. Edwards, Chief  
Product Safety Branch  
USDA/FSIS/SCI/FIAD  
Room 300, Building 306, BARC-East  
Beltsville, MD 20705  
Phone: (301) 344-2566

This branch works with MPITS and does the chemical reviews of maintenance and cleaning materials used within meat and poultry plants. The branch also does chemical reviews of direct and indirect additives to determine if they meet established safety requirements.

## Nutrition Branch

Chief  
Room 510, Annex Building  
Phone: (202) 447-7625

This branch coordinates nutritional policies for FSIS. The branch is a source of information on nutritional and related materials. This branch must review nutrition information before it leaves the agency. This branch does risk assessments of foods; i.e., mechanically deboned meat and poultry. Food consumption studies are carried out by this branch. The branch also develops nutritional criteria for the fortification of foods.

## DEPARTMENT OF COMMERCE

### NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

#### National Marine Fisheries Service

##### Office of Utilization Research

3300 Whitehaven Street, NW  
Washington, DC 20235

Mr. Thomas J. Billy, Director  
National Marine Fisheries Service (F/S3)  
Room 376 - Page Building 2  
Phone: (202) 634-7458

##### National Seafood Inspection Program

Mr. Richard V. Cano, Acting Program Manager  
National Marine Fisheries Service (F/S32)  
Room 370 - Page Building 2  
Phone: (202) 634-7458

Mrs. Rita A. Creitz, Program Analyst  
National Marine Fisheries Service (F/S32)  
Room 376 - Page Building 2  
Phone: (202) 634-7458

Mrs. Creitz is the contact point for all standardization and specification work for fish and related items.

Dr. Irving D. Sackett, Jr., Director  
Field Operations  
National Marine Fisheries Service (F/S32)  
Room 382 - Page Building 2  
Phone: (202) 634-7458

Mr. Thomas J. Moreau, Director  
Northeast Inspection Office (F/S321)  
P.O. Box 1188  
Gloucester, MA 01930  
Phone: (617) 281-3600 or FTS 837-9292

Mr. Philip J. McKay, Acting Director  
Southeast Inspection Office (F/S322)  
9450 Koger Boulevard, Duval Building  
St. Petersburg, FL 33702  
Phone: (813) 893-3155 or FTS 826-3155

Mr. Glenn D. Kiel, Director  
Western Inspection Office (F/S323)  
5600 Rickenbacker Road, Building 7  
Bell, CA 90201  
Phone: (213) 267-6734 or FTS 985-6734

This program provides inspection services which determine product conformance with U.S. Grade Standards for fish and related items.

DEPARTMENT OF DEFENSE

DEPARTMENT OF THE ARMY

U.S. Army Natick Research and Development Center

Directorate for Engineering Programs Management

Kansas Street  
Natick, MA 01760

Mr. Thomas M. Keville, Director  
ATTN: STRNC-E  
Phone: (617) 651-4794 or AUTOVON 256-4794

Document Preparation Division

Mr. Dominic E. Luppino, Chief  
ATTN: STRNC-ES  
Phone: (617) 651-5221 or AUTOVON 256-5221

The Document Preparation Division is responsible for matters pertaining to preparation, coordination, resolution of comments, approval of military specifications, handbooks, engineering practices studies, and Qualified Products Lists. This division acts as preparing activity, custodian, and review activity where "GL" is shown in the FSC listing of the DODISS.

Branch B

Mr. Thomas F. Flanigan, Chief  
ATTN: STRNC-ESB  
Phone: (617) 651-4531 or AUTOVON 256-4531

Mr. Donald Hamlin, Quality Assurance Specialist  
ATTN: STRNC-ESB  
Phone: (617) 651-4261 or AUTOVON 256-4261

Branch B is responsible for the preparation of military documents and for the coordination of government-wide food product descriptions within DOD.

DEFENSE LOGISTICS AGENCY

DEFENSE PERSONNEL SUPPORT CENTER

OFFICE OF THE COMMANDER, SUBSISTENCE FIELD ACTIVITIES AND DIRECTOR, SUBSISTENCE

2800 South 20th Street  
Philadelphia, PA 19101

CAPT Alan J. Nissalke, SC, USN, Commander  
ATTN: DPSC-S  
Phone: (215) 952-2900 or AUTOVON 444-2900

Technical and Quality Assurance Division

COL Philip N. Gustin, VC, USA, Chief  
ATTN: DPSC-ST  
Phone: (215) 952-2951 or AUTOVON 444-2951

Mr. Henry C. Davis, Assistant Chief  
ATTN: DPSC-ST  
Phone: (215) 952-2951 or AUTOVON 444-2951

This division consists of the Quality Assurance; Technical Services; and Cataloging, Standardization and Technical Data Branches. It is the responsibility of these branches to assure the quality of food purchased and to provide technical assistance.

Quality Assurance Branch

LTC Lawrance P. Maul, VC, USA, Chief  
ATTN: DPSC-STQ  
Phone: (215) 952-2955 or AUTOVON 444-2955

This branch is responsible for quality assurance concerning food items procured for Defense personnel and it coordinates with USDA on development and revision of food product descriptions.

### Acquisition Support Section

MAJ John B. Johnson, VC, USA, Chief  
ATTN: DPSC-STQA  
Phone: (215) 952-2957 or AUTOVON 444-2957

This section consists of an Animal Products Team and a Non-Animal Products Team under the section chief, a military veterinary officer. They are responsible for developing quality assurance policies and procedures, documenting the quality assurance records of defense contractors, and liaison with other military or civilian governmental inspection agencies. The section chief also functions as the Hazardous Food Recall Officer responsible for all food activities.

### Contract Quality Assurance Section

MAJ Robert G. Hicks, USA, Chief  
ATTN: DPSC-STQC  
Phone: (215) 952-3816 or AUTOVON 444-3816

The Contract Quality Assurance Section works with inspection personnel and contracting officers when nonconformances occur. Section personnel make careful review of defects or specification noncompliance and forward appropriate recommendations to the contracting officers. This office also requests reinspections, appeals, etc., when directed by the contracting officer.

### Specialized Support/Supply Evaluation Section

Mr. Martin J. Gagnon, Chief  
ATTN: DPSC-STQP  
Phone: (215) 952-3820 or AUTOVON 444-3820

Mr. George W. Dart, Quality Audit Monitor  
ATTN: DPSC-STQP  
Phone: (215) 952-3822 or AUTOVON 444-3822

This section consists of a Quality Audit Team, a Test/Evaluation Team, a Depot Surveillance Team, and a Central Control Point (CCP) Team. It is responsible for surveillance inspection of all wholesale stocks, quality audit inspection verification test functions, division publication functions, and the CCP Team that investigates all complaints from users of food procured from wholesale stocks. Mr. Gagnon also serves as DOD Metric Advisor for food and grocery products.

### Technical Services Branch

Mr. Alfred L. Savich, Chief  
ATTN: DPSC-STIS  
Phone: (215) 952-2961 or AUTOVON 444-2961

The Technical Services Branch consists of a Packaging and Packing Team, Value Engineering Team, Non-Animal Products Team, and Animal Products Team. This branch is responsible for providing technical support for the acquisition of subsistence items by reviewing purchase documents, developing technical data, conducting technical evaluations, and performing liaison work with the Services and government activities. The Value Engineering Team is responsible for managing and directing the activities of the DPSC Value Engineering Program.

Animal Products Team

Mr. Lawrence C. Mirage, Chief  
ATTN: DPSC-STSA  
Phone: (215) 952-2965 or AUTOVON 444-2965

Non-Animal Products Team

Mr. William M. Nakaue, Chief  
ATTN: DPSC-STSM  
Phone: (215) 952-2960 or AUTOVON 444-2960

The Non-Animal Products Team is responsible for giving technical assistance in the areas of grain, fruit, and vegetable items.

Packaging and Packing Team

Mr. Thomas E. Frank, Chief  
ATTN: DPSC-STSP  
Phone: (215) 952-2977 or AUTOVON 444-2977

The Packaging and Packing Team is responsible for incorporating unitization requirements into subsistence-type contracts.

Value Engineering Team

Mr. Robert Feltner, Chief  
ATTN: DPSC-STSV  
Phone: (215) 952-2979 or AUTOVON 444-2979

The Value Engineering Team is responsible for review and evaluation of all value engineering contract proposals for subsistence items.

Cataloging, Standardization and Technical Data Branch

Mr. Richard I. Weatherbee, Chief  
ATTN: DPSC-STC  
Phone: (215) 952-4435 or AUTOVON 444-4435

Standardization Programs Team

Mr. Edward E. Wilson, Standardization Program Manager  
ATTN: DPSC-STC  
Phone: (215) 952-4436 or AUTOVON 444-4436

Cataloging Programs Section

Miss Sybille V. Black, Catalog Program Manager  
ATTN: DPSC-STC  
Phone: (215) 952-4438 or AUTOVON 444-4438

This branch is the sole Cataloging Agency and Standardization Assignee Activity for Federal Supply Group 89-Food in DOD. All authorized item descriptions, NSNs, catalogs, and specification-type documents for food and drink items used in DOD are either prepared, processed, or monitored by this office. All subsistence cataloging, standardization, and technical data communications requiring action under these programs must be addressed to DPSC-STC.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

PUBLIC HEALTH SERVICE

FOOD AND DRUG ADMINISTRATION

Center for Food Safety and Applied Nutrition

Division of Food Technology

HFF-210, Room 4029  
200 C Street, SW  
Washington, DC 20204

Dr. A. D. Berneking, Director  
Phone: (202) 485-0097

Dr. Prince G. Harrill, Deputy Director  
Phone: (202) 485-0097

Mr. Florian C. Majorack, Assistant Director  
for Quality Assurance  
Phone: (202) 485-0106

This division prepares Standards of Identity and Good Manufacturing Practice regulations.

GENERAL SERVICES ADMINISTRATION

FEDERAL SUPPLY AND SERVICES

OFFICE OF PROCUREMENT

Commodity Management Division (FCM)

GSA/FSS  
1941 Jefferson Davis Highway  
Washington, DC 20406

Mr. Robert W. Beardon, Director  
Crystal Mall Building 4, Room 709  
Phone: (703) 557-7901

Ms. Lucille Lewis, Program Analyst  
Crystal Mall Building 4, Room 709  
Phone: (703) 557-7943

Ms. Lewis is the contact for numbers for new, revised, or interim Federal specifications or standards. GSA is responsible for printing, indexing, and distribution of food product descriptions in Federal Supply Group 89-Food.

Procurement Operations Support Division (FCO)

Mr. Fanny Cooks, Procurement Analyst  
Crystal Mall Building 4, Room 619  
Phone: (703) 557-0282

The Procurement Operations Support Division indexes Federal documents, including food standards and specifications.

National Capitol Region

Mr. Robert Tyson, Liaison Officer  
GSA/FSS  
Room 2905  
7th and D Streets, SW  
Washington, DC 20407  
Phone: (202) 472-1889

Printing and distribution of documents by the Government Printing Office (GPO) should be coordinated through this GSA liaison officer. GPO prints fully coordinated Federal specifications, CID's, and interim Federal specifications.

## SECTION B--FOOD RESEARCH

### DEPARTMENT OF AGRICULTURE

#### AGRICULTURAL RESEARCH SERVICE

Agricultural Research Service  
U.S. Department of Agriculture

Dr. Terry B. Kinney, Jr., Administrator  
Room 302-A, Administration Building  
14th Street and Independence Avenue, SW  
Washington, DC 20250  
Phone: (202) 447-5923

Dr. Mary E. Carter, Associate Administrator  
Room 302-A, Administration Building  
14th Street and Independence Avenue, SW  
Washington, DC 20250  
Phone: (202) 447-3656

Dr. Thomas J. Army, Deputy Administrator  
National Program Staff  
Room 125, Building 005, BARC-West  
Beltsville, MD 20705  
Phone: (301) 344-3085

#### Northeastern Region

USDA/ARS/NER  
Beltsville, MD 20705

Dr. William H. Tallent, Deputy Administrator  
Room 333, Building 003, BARC-West  
Phone: (301) 344-3418

#### Beltsville Agricultural Research Center (BARC)

Dr. W. Klassen, Director  
Room 227, Building 003, BARC-West  
Phone: (301) 344-3078

#### Animal Science Institute

Dr. Lewis W. Smith, Chairperson  
Room 217, Building 200, BARC-East  
Phone: (301) 344-3431

#### Meat Science Research Laboratory

Dr. Anthony W. Kotula, Laboratory Chief  
Room 205, Building 201, BARC-East  
Phone: (301) 344-2400

Dr. Bradford W. Berry, Research Food Technologist  
Room 101, Building 201, BARC-East  
Phone: (301) 344-2400

This unit performs applied laboratory research on projects concerning meat and meat items.

DEPARTMENT OF COMMERCE

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

National Marine Fisheries Service

Gloucester Laboratory

DOC/NOAA/NMFS  
Northeast Fisheries Center  
Emerson Avenue  
Gloucester, MA 01930

Mr. Robert J. Learson, Laboratory Director  
Phone: (617) 281-3600, Ext. 237 or FTS 837-9237

Dr. Joseph J. Licciardello, Supervisory Research Food Technologist  
Phone: (617) 281-3600, Ext. 236 or FTS 837-9236

Dr. J. Perry Lane, Research Food Technologist  
Phone: (617) 281-3600, Ext. 284 or FTS 837-9284

Mr. John J. Ryan, Research Food Technologist  
Phone: (617) 281-3600, Ext. 248 or FTS 837-9248

This laboratory does research in preserving fish and fish products. This laboratory researches ways to promote and develop new fish products.

Charleston Laboratory

Mr. Harry L. Seagran, Laboratory Director  
DOC/NOAA/NMFS  
Southeast Fisheries Center  
P.O. Box 12607  
Charleston, SC 29412-0607  
Phone: (803) 762-1200 or FTS 677-4770

This laboratory does research in the field of microconstituents (i.e., mercury, lead, cadmium, and PCB) of fish and fish products. The laboratory also does research in the development and utilization of fish products.

Seattle Laboratory

Mr. John Spinelli, Director  
Utilization Research Division  
Northwest and Alaska Fisheries Center  
DOC/NOAA/NMFS  
2725 Montlake Boulevard East  
Seattle, WA 98112  
Phone: (206) 442-7746 or FTS 399-7746

This laboratory does research in processing and preservation of fish and fish products, including underutilized species.

DEPARTMENT OF DEFENSE

DEPARTMENT OF THE ARMY

U.S. Army Natick Research and Development Center

Food Engineering Laboratory

Kansas Street  
Natick, MA 01760

Dr. Abner S. Salant, Director  
ATTN: STRNC-W  
Phone: (617) 651-4402 or AUTOVON 256-4402

The Food Engineering Laboratory is responsible for scientific and engineering efforts to provide feeding systems, including rations, ration components, packaging, and food service equipment, which satisfy the requirements of DOD, quadripartite standardization programs, and other government undertakings.

Food Technology Division

Mr. Gerald L. Schulz, Chief  
ATTN: STRNC-WT  
Phone: (617) 651-4478 or AUTOVON 256-4478

LTC William Burris, Jr., Staff Veterinarian Officer  
ATTN: STRNC-WT  
Phone: (617) 651-4050 or AUTOVON 256-4050

The Food Technology Division is responsible for the planning, organizing, coordination, and conducting of research, development, production engineering, and standardization of rations, foods, and subsistence packaging systems for the Armed Forces. This division is responsible to investigate, establish, apply, and standardize new and improved processing and preservations techniques, product treatments and formulations, packaging systems, and preparation procedures, including protection from insects and other pests, to meet characteristics required by the Military Services.

### Product Development and Engineering Branch

Mr. Gary W. Shults, Chief  
ATTN: STRNC-WTA  
Phone: (617) 651-4475 or AUTOVON 256-4475

Mr. John L. Secrist, Senior Food Technologist  
ATTN: STRNC-WTA  
Phone: (617) 651-4475 or AUTOVON 256-4475

SFC John J. Lyons, Food Inspection Specialist  
ATTN: STRNC-WTA  
Phone: (617) 651-4433 or AUTOVON 256-4433

### Technology Acquisition and Development Branch

Dr. Irwin A. Taub, Chief  
ATTN: STRNC-WTT  
Phone: (617) 651-4711 or AUTOVON 256-4711

Mr. Norm E. Harris, Food Technologist  
ATTN: STRNC-WTT  
Phone: (617) 651-5036/5192 or AUTOVON 256-5036/5192

Mr. Harris is the food technologist responsible for fruits and vegetables and general products (i.e., candy, coffee, and bakery items.)

Mr. Ivor T. Nii, Senior Food Technologist  
ATTN: STRNC-WTT  
Phone: (617) 651-5170 or AUTOVON 256-5170

Mr. Nii is the senior food technologist responsible for technical requirements and engineering support for all products of plant origin.

### Subsistence Protection Branch

Mr. Fredrick A. Costanza, Chief  
ATTN: STRNC-WTS  
Phone: (617) 651-4743 or AUTOVON 256-4743

The Subsistence Protection Branch is responsible for the research and development of safe packaging and processing of foods prepared for the Armed Forces.

Ration Design and Evaluation Branch

Mrs. Mary V. Klicka, Chief

ATTN: STRNC-WTR

Phone: (617) 651-5201 or AUTOVON 256-5201

The Ration Design and Evaluation Branch plays an important role in helping to develop and promote newly unique food products to meet different logistic or economic needs for the Armed Forces.

## PART 7

### PREPARING ACTIVITIES

Preparing Activity Definition: An activity within an assigned agency responsible for the development and maintenance of a specified product description for food.

DEPARTMENT OF AGRICULTURE

AGRICULTURAL MARKETING SERVICE

Marketing Programs

Dairy Division

USDA/AMS/DA  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. Edward T. Coughlin, Director  
Room 2968, South Building  
Phone: (202) 447-4392

Dairy Grading and Standardization Branch

Standardization Section

Mr. Richard W. Webber, Head  
Room 2750, South Building  
Phone: (202) 447-7473

This section is the preparing activity for U.S. Grade Standards for dairy products. The branch also prepares government-wide food product descriptions for use by all Federal agencies.

Fruit and Vegetable Division

USDA/AMS/FV  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. Charles R. Brader, Director  
Room 2077, South Building  
Phone: (202) 447-4722

Fresh Products Branch

Mr. Michael A. Castille, Chief  
Room 2052, South Building  
Phone: (202) 447-5870

Standardization Section

Mr. Frank J. McNeal, Head  
Room 2048, South Building  
Phone: (202) 447-2185

Mr. Michael A. Canon, Assistant Head  
Room 2048, South Building  
Phone: (202) 447-2185

This section prepares U.S. Grade Standards for fresh fruits and vegetables. This section also prepares government-wide food product descriptions for use by all Federal agencies.

#### Processed Products Branch

Mr. Joe A. Fly, Chief  
Room 0709, South Building  
Phone: (202) 447-4693

#### Standardization Section

Mr. Howard W. Schutz, Head  
Room 0716, South Building  
Phone: (202) 447-6247

Mr. Melvin J. Horst, Assistant Head  
Room 0716, South Building  
Phone: (202) 447-6247

This section prepares U.S. Grade Standards for processed fruits and vegetables. This section also prepares government-wide food product descriptions for use by all Federal agencies.

#### Livestock Division

USDA/AMS/LS  
Washington, DC 20250

Mr. Thomas H. Porter, Director  
Room 2092, South Building  
14th Street and Independence Avenue, SW  
Phone: (202) 447-5705

Mr. Paul M. Fuller, Deputy Director  
Room 2631, South Building  
14th Street and Independence Avenue, SW  
Phone: (202) 447-4727

#### Standardization and Review Branch

Dr. Michael L. May, Chief  
2nd Floor Mezzanine, Annex Building  
300 12th Street, SW  
Phone: (202) 447-4486

The Standardization and Review Branch prepares Federal food product descriptions and Institutional Meat Purchase Specifications for meat and meat items which are used within the Government as well as by private institutions. The Standardization and Review Branch also prepares U.S. Grade Standards for use in the grading of meat and meat items.

#### Poultry Division

USDA/AMS/PY  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. H. Connor Kennett, Jr., Director  
Room 3932, South Building  
Phone: (202) 447-4476

#### Standardization Branch

Mr. D. Michael Holbrook, Chief  
Room 3944, South Building  
Phone: (202) 447-3506

Mr. Merlin L. Nichols, Jr., Assistant Chief  
Room 3944, South Building  
Phone: (202) 447-3506

The Standardization Branch prepares Federal food product descriptions for poultry, eggs, and egg products for use by all Federal agencies. This branch also prepares U.S. Grade Standards for poultry, poultry products, rabbits, and shell eggs.

### DEPARTMENT OF COMMERCE

#### NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

#### NATIONAL MARINE FISHERIES SERVICE

#### National Seafood Inspection Laboratory

National Seafood Inspection Laboratory (F/S324)  
DOC/NOAA/NMFS  
P.O. Drawer 1207  
3209 Frederic Street  
Pascagoula, MS 39567-0112

Mr. E. Spencer Garrett, Laboratory Director  
Phone: (601) 762-4591 or FTS 499-4243

Mr. Donald Maher, Approving Officer  
Phone: (601) 762-1892 or FTS 499-4259

This laboratory has the responsibility for preparing U.S. Grade Standards for fish, fish items, and shellfish.

Office of Utilization Research

3300 Whitehaven Street, NW  
Washington, DC 20235

Mr. Thomas J. Billy, Director  
National Marine Fisheries Service (F/S3)  
Room 376 - Page Building 2  
Phone: (202) 634-7458

National Fishery Products Program

Mr. Robert R. Kifer, Acting Program Manager  
National Marine Fisheries Service (F/S31)  
Room 380 - Page Building 2  
Phone: (202) 634-7458

This program is responsible for development of U.S. Grade Standards and government-wide food product descriptions for fish and fish products.

DEPARTMENT OF DEFENSE

DEPARTMENT OF THE ARMY

U.S. Army Natick Research and Development Center

Directorate for Engineering Programs Management

Kansas Street  
Natick, MA 01760

Mr. Thomas M. Keville, Director  
ATTN: STRNC-E  
Phone: (617) 651-4793 or AUTOVON 256-4793

Document Preparation Division

Mr. Dominic E. Luppino, Chief  
ATTN: STRNC-ES  
Phone: (617) 651-5221 or AUTOVON 256-5221

The Document Preparation Division is responsible for matters pertaining to preparation, coordination, resolution of comments, approval of military specifications, handbooks, engineering practices studies, and Qualified Products Lists. This division acts as preparing activity, custodian, and review activity where "GL" is shown in the FSC listing of the DODISS.

## Branch B

Mr. Thomas F. Flanigan, Chief  
ATTN: STRNC-ESB  
Phone: (617) 651-4531 or AUTOVON 256-4531

Ms. Barbara J. Lajoie, Food Technologist  
ATTN: STRNC-ESB  
Phone: (617) 651-5231 or AUTOVON 256-5231

Ms. Susan Dorval, Food Technologist  
ATTN: STRNC-ESB  
Phone: (617) 651-5230 or AUTOVON 256-5230

Ms. Betty Davis, Food Technologist  
ATTN: STRNC-ESB  
Phone: (617) 651-5232 or AUTOVON 256-5232

Ms. Nancy Masison, Food Technologist  
ATTN: STRNC-ESB  
Phone: (617) 651-4261 or AUTOVON 256-4261

Mr. Donald Hamlin, Quality Assurance Specialist  
ATTN: STRNC-ESB  
Phone: (617) 651-4261 or AUTOVON 256-4261

Branch B is responsible for the preparation of military documents and for the coordination of government-wide food product descriptions within DOD.

## Materiel Acquisition Division

Mr. Dennis Gordon, Chief  
ATTN: STRNC-EM  
Phone: (617) 651-4304 or AUTOVON 256-4304

## Standardization Branch

Mr. Norman C. Ristaino, Chief  
ATTN: STRNC-EMS  
Phone: (617) 651-4084 or AUTOVON 256-4084

Mrs. Marie E. Henrikus, Program Analyst  
ATTN: STRNC-ENSM  
Phone: (617) 651-4141 or AUTOVON 256-4141

The Standardization Branch is responsible for matters pertaining to standardization management, policy administration, programs, program analysis, project assignment, overage document review, accomplishment data, and item reduction studies. This branch is responsible for reports on standardization projects for SD-4 (DD Form-1585) and changes or corrections to the DODISS (DD Form-1865).

## VETERANS ADMINISTRATION

### OFFICE OF PROCUREMENT AND SUPPLY

#### Technical and Standards Division

Mr. John W. Marshall, Chief  
Technical and Standards Division (92B)  
810 Vermont Avenue, NW  
Washington, DC 20420  
Phone: (202) 389-3576/3306

The Technical and Standards Division is responsible for the review and coordination of all specifications, standards, and Commercial Item Descriptions of which VA is the preparing or coordinating activity.

### VETERANS ADMINISTRATION MARKETING CENTER

#### Marketing Division for Subsistence

Veterans Administration Marketing Center (904D)  
P.O. Box 76  
Hines, IL 60141

Dr. Thomas H. Borysek, FACA, Chief  
Phone: (312) 681-6801 or FTS 387-6801

Ms. Margaret Parker, Technical Quality Assurance Specialist  
Phone: (312) 681-6801 or FTS 387-6801

The Marketing Division for Subsistence prepares food product descriptions for use by all Federal agencies.

## PART 8

### PROCURING ACTIVITIES

Procuring Activity Definition: An activity responsible for purchasing food items in Federal Supply Group 89-Food with appropriated funds for use by the Federal Government.

DEPARTMENT OF AGRICULTURE

AGRICULTURAL MARKETING SERVICE

Marketing Programs

Fruit and Vegetable Division

USDA/AMS/FV  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. Charles R. Brader, Director  
Room 2077, South Building  
Phone: (202) 447-4722

Commodity Procurement Branch

Mr. Donald A. Thibeault, Chief  
Room 2548, South Building  
Phone: (202) 447-2781

The Commodity Procurement Branch purchases processed and fresh  
fruits and vegetables for use in Federal Food Assistance Programs  
administered by FNS.

Livestock Division

USDA/AMS/LS  
14th Street and Independence Avenue, SW  
Washington, DC 20250

Mr. Thomas H. Porter, Director  
Room 2092, South Building  
Phone: (202) 447-5705

Mr. David K. Hallet, Deputy Director  
Room 2092, South Building  
Phone: (202) 447-3215

Marketing Programs and Procurement Branch
